

NEW HOLLAND TD95D FOR COALWORKS

Eric Hannan of Coalworks Vickery South Mine is pictured taking delivery of their new New Holland TD95D Plus FWA cab tractor fitted with a New Holland AP32 Plus level lift front end loader. The tractor will be used in general site maintenance.

Eric says the TD95D is the perfect tractor for slashing and general loader work and should be ideal for keeping the site neat and tidy.

WIN A JEEP WRANGLER!

All retail customers who purchase a new New Holland tractor under the “Wrangler Rally” program, will automatically be entered into a prize draw for the chance to win one of three iconic Jeep Wrangler 4WD’s.

The Promoter is CNH Australia Pty Ltd (ABN 79 00 031 130) of 31-53 Kurrabung Road St Marys, NSW 2760. NSW Permit No. LTPS/11/. Promotion Period 17/04/11 to 30/06/11

JARRETT DISCS FOR BOB NINNESS

Bob Ninness of Manilla was looking for a set of offset discs to work through some heavier trash & weeds. After looking at a number of second-hand machines and estimating the costs and effort to tidy them up ready for work Bob asked the price of a new set. The reality was that for a few more dollars and no work involved Bob could purchase a new Jarrett 22 disc TD trailing cultivator.

Having been in the farm machinery business himself just a few years ago Bob was aware of the quality of a Jarrett machine with its robust construction and cast spacers for inbuilt weight. The TD2224 has a cut of 2.5m and requires a minimum of 80 HP.

Pictured right, Goodwin Kenny Tamworth salesman Tony Housden with Bob Ninness at delivery.

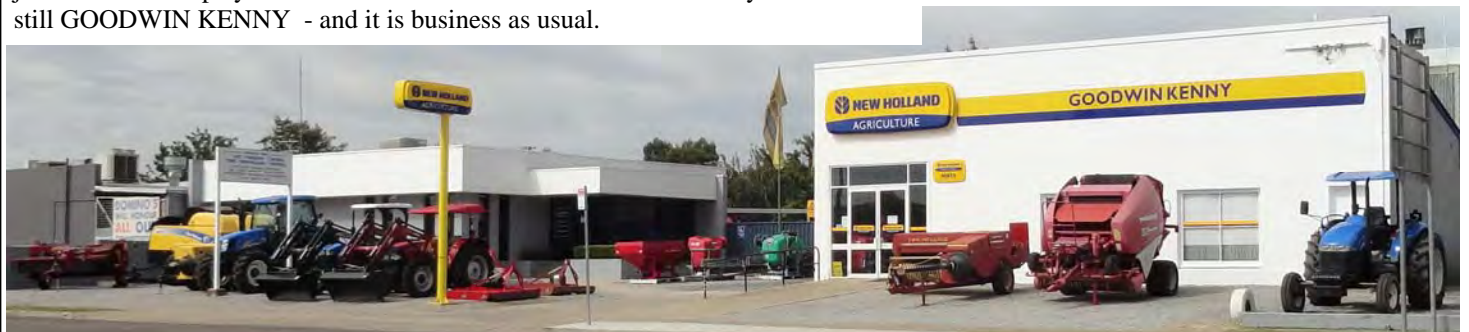

NEW LOOK—BUSINESS AS USUAL

After being at the same sites in Tamworth (since 1962) and Gunnedah (since 1964) there have been a number of changes over the years and following New Holland Agriculture’s logo and identity change we have also made some changes to our buildings.

We have had a “face-lift” during April and some customers may have noticed the transition and wondered what was happening as the shop fronts at Tamworth and Gunnedah were “white washed” ready for the new signage.

We received a number of queries and questions about the changes and now that the job is done we hope you like the new look and also want to reassure you that it is still GOODWIN KENNY - and it is business as usual.

Call in and talk to our Sales Team about Run-out deals on current New Holland tractors - new models to be released soon. Also discuss your Haymaking machinery requirements and get in early for next season—there are limited stocks of mower conditioners and balers.

Talk to Tony Housden at Tamworth on 67655244 and Peter Kenny or Glenn Furner at Gunnedah on 67425777.

SIP Hay Making Machinery

STAR 360-430

Professional PTO driven rotary hay rakes with **high working capacity** and the unique SIP **Autoflow tandem axle undercarriage** for optimal stability and finer height control. A PTO powered rotary rake produces a superior windrow (swath) compared to pulled and other rake types and this rake series has several simple to use adjustments to best accommodate different crop and ground conditions.

FEATURES OF THE SIP STAR 360—430 Rotary Rakes

- ◆ The windrow (swath) is **well formed** for superior feeding into baler or pickup wagon.
- ◆ SIP rakes generally have **more fingers (tines) per arm** than equivalent sized machines for faster/cleaner raking.
- ◆ A **fast** raking performance with a **clean** raking action gives maximum crop yield.
- ◆ **Gentle** on the crop with less contamination, thereby ensuring maximum nutrient value in the crop.
- ◆ **Pivoting headstock** allows 23 degree turning compared to 18 degrees on many other similar products.
- ◆ Lower linkage arms are category 1 and 2 and are **floating** to allow tractor/rake coupling to better follow ground contours.

IN STOCK NOW

The Tobin Bullet Disc Drill has the ability to sow at high speeds when moisture is critical to capture and retain.

A 40' Bullet Disc Drill on 15" spacing is available for immediate delivery from Goodwin Kenny at Gunnedah.

630 TYNE ASSEMBLY

John Shearer Ltd is pleased to announce the release of the new 630 spring release tyne. Based on the successful 620 tyne, the 630 has been strengthened in all areas, offering higher breakout while limiting the overall load that is applied to the frame of the drill. Featuring dual springs, a strong heat treated spring steel shank, a large diameter greaseable pivot pin with hardened bushes, heavy duty clamp bolts and a robust spring rod, makes this tyne the ideal upgrade for your John Shearer drill or cultivator.

The design is low profile and allows easy fitment on drills and cultivators. The straight leading shank and good underframe clearance promotes excellent trash flow.

The 630 tyne suits the following:

- John Shearer Direct Drill
- John Shearer 5-160
- John Shearer 4-150
- John Shearer Heavy Duty Handcult

Purchase 20 litres of Ambra multigrade engine oil and you will receive a FREE tube of Ambra GR9 NLGI-2 Grease.

Valid Friday 1st April 2011 to Tuesday 31st May 2011.

JOKE OF THE MONTH

SCOTCH?

On the first day of school, the children brought gifts for their teacher.

The supermarket manager's daughter brought the teacher a basket of assorted fruit.

The florist's son brought the teacher a bouquet of flowers.

The candy-store owner's daughter gave the teacher a pretty box of candy.

Then the liquor-store owner's son brought up a big, heavy box.

The teacher lifted it up and noticed that it was leaking a little bit.

She touched a drop of the liquid with her finger and tasted it.

"Is it wine?" she guessed. "No," the boy replied.

She tasted another drop and asked,

"Champagne?"

"No," said the little boy....."It's a puppy!"
