

KEITH BLANCH'S NEW T6090 TRACTOR

Keith Blanch has taken delivery of a new New Holland T6090 front wheel assist tractor. The machine has the reliable Range Command Transmission for use in Keith's farming operations and baling work. The tractor is equipped with a New Holland L4200S front end loader and bucket and will replace their current New Holland TM155 tractor.

Keith has taken advantage of the New Holland Extended Service Plan (Warranty) for peace of mind during the tractor's life. Picture left shows Peter Kenny with Keith and his son, Ambrose, on delivery of his machine.

THE TRADITION CONTINUES

The Barlow Family of Mirrabinda, Boggabri have been long term clients of Goodwin Kenny. Ross Barlow (James' father) purchased the first of a succession of tractors from Pat Kenny back in 1975. Since then the family has purchased no less than ten machines over the last 36 years. These include - Fiat 180-90's, G210, Genesis 8870 and T8020, right through to the latest New Holland T8030.

James Barlow who now runs the family operation, recently took delivery of his new New Holland T8030, trading their New Holland T8020, just in time to take advantage of the recent rain for planting. Picture above shows Peter Kenny with James on delivery.

WIN A JEEP WRANGLER!

SIP HAYMAKING MACHINERY

STAR 360-430

Professional PTO driven rotary hay rakes with **high working capacity** and the unique **SIP Autoflow tandem axle undercarriage** for optimal stability and finer height control. A PTO powered rotary rake produces a superior windrow (swath) compared to pulled and other rake types and this rake series has several simple to use adjustments to best accommodate different crop and ground conditions.

FEATURES OF THE SIP STAR 360—430 Rotary Rakes

- ◆ The windrow (swath) is **well formed** for superior feeding into baler or pickup wagon.
- ◆ SIP rakes generally have **more fingers (tines) per arm** than equivalent sized machines for faster/cleaner raking.
- ◆ A **fast** raking performance with a **clean** raking action gives maximum crop yield.
- ◆ **Gentle** on the crop with less contamination, thereby ensuring maximum nutrient value in the crop.
- ◆ **Pivoting headstock** allows 23 degree turning compared to 18 degrees on many other similar products.
- ◆ Lower linkage arms are category 1 and 2 and are **floating** to allow tractor/rake coupling to better follow ground contours.

IN STOCK NOW

The K-Line Speedtiller is a highly effective disc-tilling machine ideal for soil conditioning in the presence of high levels of crop residues. With a full soil disturbance, trash is cut and distributed evenly providing a protective barrier to retain moisture. The K-Line Speedtiller operates best at high speeds, giving a fuel efficient operation and allowing stubble residues to pass easily through tined seeders. A depth gauging roller is provided at the rear giving the desired crumbling effect on the soil profile and excellent seedbed preparation.

Benefits:

- Excellent seedbed preparation
- Increase organic matter in your soil
- Effective weed control
- Proven ability to mulch and breakdown trash residue
- Crumbler Rollers are supplied standard. Pipe Rollers & Coil Packer Rollers are also available
- 560mm discs are standard
- Models from 1.75m to 9m

Save on fuel cost, Save chemical cost, Australian built.

PASTURE DRILLS

Increase the carrying capacity of your paddocks with a John Shearer pasture drill.

Available as a:

Coulter Tyne drill – recommended for use in existing pastures where some or all of the existing pasture is intended to be retained. The coulters cut a path ahead of each sowing tyne which minimises disturbance of existing pasture.

Standard Tyne Drill - This model is generally suited to situations where pastures are being sown into fully cultivated seed beds, or where any existing pasture has been completely removed by prior spray applications. There are three ranks of tynes which provide excellent ability for trash to pass between the tynes during sowing.

All with the following unique John Shearer characteristics to create maximum benefit for you.

- Baker or Mini 'T' Boot adaptable – for accurate seed placement in a seed bed that can increase germination and early growth. Optional Lucerne points as well.
- 580 Edge on tyne assembly with good digging ability, underframe clearance and trash handling
- Spring Release Coulters to cut through trash and existing plant stand

Plus the renowned John Shearer reliability and usability features Simple rate adjustment, Easy calibration, Versatile sowing mechanism to suit a wide range of seed types, Excellent Depth Control, large capacity boxes plus more....

MONTHLY WINNERS

Congratulations to our New Holland FLAME Cap Winners:

R. Tizzard—Tamworth, Kalkadoon Pastoral Co—Tambar Springs, T & K Balla—Attunga

This month we have 3 NEW HOLLAND BEANIES to give away - simply return your payment by Monday 27th June 2011 to go in the draw.

We would also remind customers that we accept Visa & MasterCard over the phone and Debit cards may be used at Tamworth and Gunnedah Branches, and all payments by these methods are included in the monthly prize draw.

Electronic/Internet Payments on the last day on the month cannot be allocated until the next day - it would assist us greatly if payments could be made prior to the last day of the month to allow receipting and allocation to accounts prior to Month End.thank you

For customers who use internet Banking, our bank account details are:
Commonwealth Bank BSB: 062 602 Account Number: 00 272 029
 Please use your account number, name or invoice number as a reference.

JOKE OF THE MONTH

Armstrong's Secret
 Guaranteed to make you smile

On July 20, 1969, as commander of the Apollo 11 Lunar Module, Neil Armstrong was the first person to set foot on the moon.

His first words after stepping on the moon, "That's one small step for man, one giant leap for mankind," were televised to earth and heard by millions.

But just before he re-entered the Lander, he made the enigmatic remark: "Good luck, Mr Gorsky."

Many people at NASA thought it was a casual remark concerning some rival soviet cosmonaut. However, upon checking, there was no Gorsky in either the Russian or American Space Programs.

Over the years many people questioned Armstrong as to what the "Good luck, Mr Gorsky" statement meant, but Armstrong always just smiled.

On July 5, 1995, in Tampa Bay, Florida while answering questions following a speech, a reporter brought up the 26 year old question to Armstrong. This time he finally responded.

Mr Gorsky had died, so Neil Armstrong felt he could now answer the question. In 1938, when he was a kid in a small mid-western town, he was playing baseball with a friend in the backyard. His friend hit the ball, which landed in his neighbours yard by their bedroom window. His neighbour's names were Mr and Mrs Gorsky. As he leaned down to pick up the ball, young Armstrong heard Mrs Gorsky shouting at Mr Gorsky:

"Sex! You want sex? You'll get sex when the kid next door walks on the moon!"
