

### New Holland Tractors help assure your Farming Future

Department of Primary Industries research teams have increased their New Holland fleet to four tractors in Tamworth with the addition of two specially built T5040 Tractors. The Chickpea and Durum Research teams now have two new New Holland T5040 tractors to join the Barley and No Till Research teams who have a T5040 and TL80 delivered in the last couple of years.

With the importance of research in the ongoing development of cropping regimes to assist farmers with maximising returns, the new tractors are critical to enable the researchers to get plantings in on time, to handle the ever increasing complexity of specialist trial planting rigs and enhance the operator safety and comfort factors. The research teams plant and maintain thousands of trial plots throughout Northwest NSW each year with the New Holland tractors.

Pictured (above) at installation of the latest 2 tractors are L to R: Jim Perfrement, David Gulliford, Darren O'Brien, Brent Johnson and Andrew George.

A big consideration in this purchase is the similarity in tractors so that operators can move from machine to machine without the need for additional training or familiarisation. **New Holland T5040** – 86Hp Tier III Emission Engine, 20x20 Creeper gear Transmission, Hydraulic Power Shuttle, Electronic Draft control, Twin External 3pl lift rams (5,060kg at ball ends) and 3 sets of external hydraulic remotes.

### LEON DE GROOT'S NEW T6010 TRACTOR

Leon DeGroot of Leon's Pork Gunnedah is pictured at the installation of his second New Holland T6010 tractor. With piggery growth and increased demand for reliable, quality hay contracting Leon decided to update, trading his older New Holland TS100A tractor. Leon can now use either of his T6010 tractors in any of his operations be it mowing, baling or farm work, both tractors are similar in fitments and can be used in any of his applications.

### New Holland's new Tractor Range

**T7 SWB**—From T7.170 at 125 Rated Hp to T7.210 at 165 Rated Hp

**T7 LWB**—From T7.220 at 167 Rated Hp to T7.270 at 228 Rated Hp

### MORE PRODUCTIVITY AND POWER

T7 tractors boast New Holland's cutting-edge ECO-Blue™ SCR technology for Tier 4A compliance. This means that the 6.7 litre Nef engine benefits from exceptional breathability for a significant performance advantage.

What do the numbers mean - Quite simply, it is on the bonnet.

The first two digits 'T7' refer to the tractor's category and the following three, for example '210', refer to the maximum Engine Horsepower under Engine Power Management. What does that mean to you? You can buy your T7 safe in the knowledge that it will be able to cope with even the most demanding applications. New Holland for ultimate productivity peace of mind.

### EXCEPTIONAL FUEL ECONOMY:

The new Tier 4A Nef power units in T7 tractors go one stage further, with fuel use cut by up to 10% when compared to existing T7000 models.

With Three efficiency driven transmission options  
Range Command – Semi Powershift  
Power Command – Full Powershift  
Auto Command for the ultimate in CVT

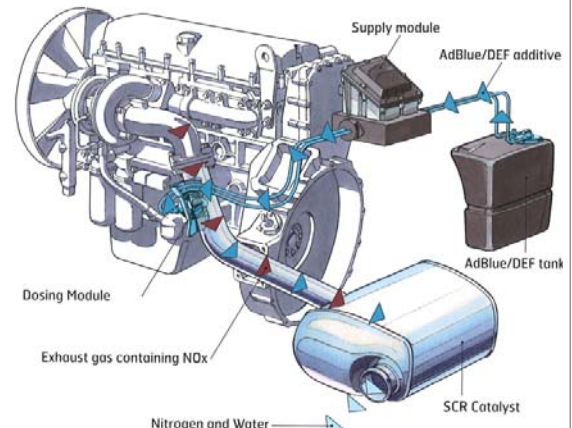

Call into one of our branches for all the details on the new New Holland T7 range.

Peter Kenny & Glenn Furner at Goodwin Kenny Gunnedah with the new New Holland T7.185 and T8.330 tractors.

### ULTIMATE ENGINE BREATHABILITY

T7 tractors are powered by the very latest generation of Nef engines. Now with proven ECOBlue™ SCR technology, to meet the stringent Tier 4A emissions standards. This uses AdBlue® to transform the harmful nitrogen oxides contained in the exhaust gas into harmless water and nitrogen. This aftertreatment system is separate from the main engine which means only clean, fresh air is fed into the engine. What does this mean? Clean running power units with improved performance and enhanced fuel efficiency.

## JULY IS MAINTENANCE MONTH

Have you finished sowing?  
Have you finished baling?  
Have you serviced your tractor?

**AVOID COSTLY REPAIRS  
SERVICE YOUR TRACTOR NOW!!**

Book your Tractor Service in July & receive a discount of 10% on Filters, Belts, Oil & Labour.

### PASTURE DRILLS

Increase the carrying capacity of your paddocks with a John Shearer pasture drill.

Available as a:

**Coulter Tyne drill** – recommended for use in existing pastures where some or all of the existing pasture is intended to be retained. The coulters cut a path ahead of each sowing tyne which minimises disturbance of existing pasture.

**Standard Tyne Drill** - This model is generally suited to situations where pastures are being sown into fully cultivated seed beds, or where any existing pasture has been completely removed by prior spray applications. There are three ranks of tynes which provide excellent ability for trash to pass between the tynes during sowing.

All with the following unique John Shearer characteristics to create maximum benefit for you.

- Baker or Mini 'T' Boot adaptable – for accurate seed placement in a seed bed that can increase germination and early growth. Optional Lucerne points as well.
- 580 Edge on tyne assembly with good digging ability, underframe clearance and trash handling
- Spring Release Coulters to cut through trash and existing plant stand

Plus the renowned John Shearer reliability and usability features Simple rate adjustment, Easy calibration, Versatile sowing mechanism to suit a wide range of seed types, Excellent Depth Control, large capacity boxes plus more....

## MONTHLY WINNERS

Congratulations to our New Holland BEANIE Winners:  
Integrated Land Management-Tamworth, Boorolong Pty Ltd-Armidale,  
Klori Pastoral Co-Attunga

This month we have 3 NEW HOLLAND BEANIES to give away - simply return your payment by Tuesday 26th July 2011 to go in the draw.

We would also remind customers that we accept Visa & MasterCard over the phone and Debit cards may be used at Tamworth and Gunnedah Branches, and all payments by these methods are included in the monthly prize draw.

Electronic/Internet Payments on the last day on the month cannot be allocated until the next day - it would assist us greatly if payments could be made prior to the last day of the month to allow receipting and allocation to accounts prior to Month End.  
....thank you

For customers who use internet Banking, our bank account details are:

Commonwealth Bank      BSB: 062 602      Account Number: 00 272 029

Please use your account number, name or invoice number as a reference.

## JOKE OF THE MONTH

MEN JUST DON'T LISTEN

Wanda's dishwasher quit working so she called in a repairman. Since she had to go to work the next day, she told the repairman, "I'll leave the key under the mat. Fix the dishwasher, leave the bill on the counter, and I'll mail you a cheque... Oh, by the way don't worry about my dog Spike. He won't bother you." "But, whatever you do, do NOT, under ANY circumstances, talk to my parrot!"

"I MUST STRESS TO YOU: DO NOT TALK TO MY PARROT!!!"

When the repairman arrived at Wanda's apartment the following day, he discovered the biggest, meanest looking dog he had ever seen. But, just as she had said, the dog just lay there on the carpet watching the repairman go about his work.

The parrot, however, drove him nuts the whole time with his incessant yelling, cursing, and name calling.

Finally the repairman couldn't contain himself any longer and yelled, "Shut up, you stupid, ugly bird!" To which the parrot replied "Get him, Spike!"

See.....men just don't listen!

## GUIDANCE SYSTEMS

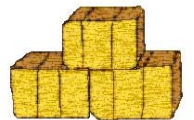

The benefits of guidance are clear. More productivity, less wastage and greater efficiency. We stock a complete range of guidance solutions and our expertise means you'll get the most out of what the technology has to offer.

**CONGRATULATIONS JOSH** — On Friday 24th June we attended the 2011 NSW Training Awards for the New England Region held at TRECC, Tamworth.

Our spare parts Trainee, Josh White, was nominated in the Trainee of the Year Awards and with 38 other Trainee finalists received recognition of their achievements. Josh commenced employment with Goodwin Kenny in February 2009 and undertook a Certificate III in Transport & Logistics (Warehousing & Storage) which he completed in November 2010. Josh saw the Traineeship as an opportunity to complete a qualification while working, and has combined his interests in all things mechanical with his abilities and job skills. Our congratulations to Josh.

Susan Goodwin, Josh White and Spare Parts Manager David Hartmann
