

THE STIEGER'S NEW TT75DT TRACTOR

James and Robyn Stieger are pictured at the installation of their new New Holland TT75DT ROPS tractor. James and Robyn elected to have a New Holland/Challenge AP32 Plus loader with 4 in 1 bucket fitted to assist with farm maintenance and light clearing work at Baan Baa. Local backup & support were the major determining factors in purchasing the New Holland TT75.

A NEW BC5070 BALER FOR THE CAMERON'S FARMS

In a big jump forward Dave and Mary Ann Cameron have replaced their New Holland 317 baler with a New Holland BC5070 baler (new version of the 575). This decision will almost halve the time Dave has to spend baling, the savings gained for their enterprise will add up. Reduced fuel use, more premium bales baled at the optimum time during the night, less chance of lost or downgraded hay due to rain, quicker baling means sooner into the shed and better productivity with less fatigue due to long nights baling. The hydraulic swing is also a time and labour saving feature that is being

looked forward to. The BC5070 will also present a better shaped bale than the old New Holland 317. Pictured from left to right is Jack, David and Blake Cameron.

A NEW BC5060 BALER FOR MARK STASS

Mark, from Piallamore, was looking to rationalise and upgrade some of his hay making equipment, he has chosen a New Holland BC5060 small baler (new version of the 570) to replace his older 568 baler. The BC5060 will give Mark greater reliability, less breakdowns being a new machine and easy set up in field with the hydraulic swing kit. After being PD'd and modified in our workshop by Merv Leard the baler pressed very high quality bales on start up in a very good Ryegrass crop .

A NEW BC5070 BALER FOR THE GETT FAMILY

Oaten Hay is a significant part of the Gett family's business at Narrabri and after 2 old New Holland balers (317 and 417 Super) Peter Gett wanted to move forward to the new BC5070 (new version of the 575) to improve reliability of the baling process and get the crop baled and off the paddock in as quick a time as possible with as few problems as possible. The heavy oat crop put the first 150 bales on the ground in about 25 minutes after a few in field adjustments by Merv Leard to ensure the bale shape and cross bale density was correct for the demands of Peter's horse clients. Pictured at left is Neville Gett, Peter Gett and Goodwin Kenny Tamworth's Salesman Tony Housden.

A NEW H7230 MOWER CONDITIONER FOR TOM SMALL

After "retiring" to a smaller block at Werris Creek Tom has decided to grow and bale some lucerne for his own stock. The New Holland H7230 mower conditioner was chosen for its reliability, speed of cut, rock guards to cope with a few small stones in Tom's country and to get the quickest conditioning and in-field dry down. The opportunity to take advantage of a special on a new, but last season's unit, and the good resale value of the New Holland machine were also important factors.

DAVID HENRY'S NEW McHALE WRAPPER

Another machine increases Dave's contracting abilities – with the delivery of a McHale 991BE Round Bale Wrapper and McHale Round Bale Grab. Dave will now be able to take a client's hay from standing crop to storage, cutting, raking, round baling and now wrapping silage and moving to storage points. The McHale 991BE is a fully automated wrapper with full electronic control from loading through wrapping to unloading where the bales can be either left on their side or rolled onto their end to reduce the possibility of the wrap being pierced by crop stalks. Pictured with the McHale Wrapper is David Henry & Tony Housden. Currently on display at Tamworth are the McHale 991HS (high speed) and McHale 991BE Wrappers - so call in and talk to Tony Housden.

NEW HOLLAND SWIVEL-HITCH DISCBINE MOWER CONDITIONERS

Haymakers can now take advantage of New Holland Discbine disc mower-conditioners with the exceptional manoeuvrability, precise cutting and tight-turning capabilities made possible by a unique

bent tongue design swivel hitch. New Holland's new H7230 and H7330 Discbine disc mower-conditioners offer the convenience and performance of a swivel hitch. The unique bent-tongue design features a constant-velocity joint driveline for on-the-go hydraulic swing for precise movement. The swivel hitch and the constant velocity driveline allows the operator to mow at almost any angle and make square and over-square corners without vibration or noise, and can be swung on-the-go to cut around field obstacles. The swivel hitch option is offered with a two-point linkage hitch.

Call in and inspect this machine at Tamworth branch.

SIP HAYMAKING MACHINERY

STAR 360-430

Professional PTO driven rotary hay rakes with high working capacity and the unique SIP Autoflow tandem axle undercarriage for optimal stability and finer height control. A PTO powered rotary rake produces a superior window (swath) compared to pulled and other rake types and this rake series has several simple to use adjustments to best accommodate different crop and ground conditions.

FEATURES OF THE SIP STAR 360 - 430 Rotary Rakes

- The window (swath) is well formed for superior feeding into baler or pickup wagon.
- SIP rakes generally have more fingers (tines) per arm than equivalent sized machines for faster/cleaner raking.
- A fast raking performance with a clean raking action gives maximum crop yield.
- Gentle on the crop with less contamination, thereby ensuring maximum nutrient value in the crop.
- Pivoting headstock allows 23 degrees turning compared to 18 degrees on many other's similar products.
- Lower linkage arms are category 1 and 2 and are floating to allow tractor/rake coupling to better follow ground contours.

IN STOCK READY TO GO!!

Howard Sprayrite 600 litre Sprayer with 8 metre boom and 50 metre hose-reel and gun.

The 600 litre Expo Linkage sprayer is ideally suited to the compact range of tractors that are widely used in general farming activity.

Features include:

- Impact resistant polyethylene tank
- A pressure and bypass agitation system
- A comet 65 L/Min diaphragm pump
- A 2 stage filtration process
- Integrated hand wash tank
- Galvanised booms

The only manual fold boom on the market with dual nozzle protection system - nozzle bar and ground contact skid loop.

HOWARD NUGGET SLASHERS

- A high quality medium / heavy duty slasher
- Complies with the WorkCover Slasher Safety Guide:
 - Extended Front and Rear Apron to protect against foot/blade contact.
 - Front and Rear Debris Guarding.
- Heavy, 4mm, high shoulder steel body: (Nugget 100 has 3mm steel body)
 - No blocking in heavy conditions.
- Adjustable skids for accurate cutting height control.
- Friction clutch protection to safe-guard both the tractor transmission and Nugget drive train.
- Latest design, high clearance two piece blade carrier.
- Forged, step-down blades for fine, even mowing.
- Built to Howard quality standards.

**HOWARD BLADE KITS
NOW IN STOCK.**

Kits include 2 blades, 2 bolts, 2 bushes and 2 nuts.

PART NO: HOW78663KN (NIB BOLT) \$88.00 Inc GST

PART NO: HOW78663K (SQ BOLT) \$88.00 Inc GST

Suits Howard Nugget Slashers

PART NO: HOW7878KN \$106.85 Inc GST

Suits EHD150, EHD180, EHD210 Slashers.

Code: 361-2088

15 LITRE CHAPLIN PRO SERIES KNAPSACK SPRAYERS

- Suitable for insecticides and herbicides
- Viton equipped, available with piston pump or diaphragm pump (diaphragm for wettable powders)
- Adjustable brass cone, flat fan and cone nozzles supplied
- Large pump for quick pressurising and less pumping.

Piston Pump Code: CP-61800
\$99.00 inc GST

Diaphragm Pump Code: CP-64800
\$135.00 inc GST

Don't forget that our Tamworth & Gunnedah stores are open Saturday mornings from 8am to 12pm.

MONTHLY WINNERS

Congratulations to our New Holland PINK CAP Winners:

Bendee Pastoral - Walcha, Hahn Bros - Dungowan, E Valks - Gunnedah

This month we have 3 NEW HOLLAND PINK CAPS to give away - simply return your payment by Wednesday 26th October 2011, to go in the draw.

We would also remind customers that we accept Visa & MasterCard over the phone and Debit cards may be used at Tamworth and Gunnedah Branches.

All payments by these methods are included in the monthly draw.

Electronic/Internet Payments on the last day on the month cannot be allocated until the next day - it would assist us greatly if payments could be made prior to the last day of the month to allow receipting and allocation to accounts to Month End.....thankyou

For customers that use Internet Banking, our bank account details are:

Commonwealth Bank BSB: 062 602 Account Number : 00 272 029

Please use you account number, name or invoice number as a reference.

JOKE OF THE MONTH

Read the Label

I should have figured it out sooner— it's the shampoo I use in the shower. When I wash my hair, the shampoo runs down my whole body. Printed very clearly on the shampoo labels it reads: "For extra volume & body."

I got rid of the shampoo and I am starting to use dish detergent. It's label reads: "Dissolves fat that is otherwise difficult to remove."

Problem Solved! Geez!

It sure pays to read the label!

SILVAN 800 LTR PASTUREPAK

6m Field boom,
Hose Reel & Gun.

***SPECIAL PRICE ONE ONLY
\$5,500.00 INC GST***

Just to Keep you up to date:

An email from one of our Agquip prize winners

Hi Susan

Chris Brennan here.....I won the pink tractor at Agquip and we have 4 grandchildren, only 1 girl - so she was the lucky one. My husband, Allan, was talking to Keith in Armidale and told him about the photos that our daughter had emailed to us of the tractor, he suggested we forward them on to you.

Thank you

Chris

BLUE THUNDER

At Gunnedah the Kenny boys are calling our latest addition "Blue Thunder". We know that the Kenny boys are Golf crazy — this notice is to warn all Golfing enthusiasts on the Gunnedah Golf Course to be "on the lookout" for this vehicle when driven by said golf crazy participants. The Golf Buggy was first discussed at Agquip (jokingly) but then became a reality. It looks great painted in its bright blue colour and badged with Goodwin Kenny and New Holland logos. Of course, if you want to discuss machinery (not golf) I am sure Peter and Mark will be very happy to do so at the Golf Course.

TAMWORTH KANGAROOS WIN GRAND FINAL

On Saturday 17th September the AFL Grand Final was held at No.1 Oval in Tamworth between the Tamworth Kangaroos and the Inverell Saints.

As long time sponsors of the Kangaroos, Goodwin Kenny were invited to attend the Sponsor's Lunch and watch the Grand Final. We had a great day and the game was well contested and provided some exciting moments during the afternoon. During the third quarter the Roos piled on the points to seal the game with the full time score being 17 16 118 to 11 14 80.

Congratulations to Coach Tim Cotter, President Shane Douglas and our thanks to our hostess for the day Tracey Nuttall.

We still have a wide range of new equipment on display at Tamworth and Gunnedah including the New Holland Rustler, New Holland Small Square, Large and Round Balers, tractors ranging from 80 horsepower through to 300 horsepower, the new New Holland Swivel Hitch Discbine Mower Conditioner—so call in and talk to Peter Kenny or Glenn Furner at Gunnedah and Tony Housden at Tamworth.

Susan Goodwin....
