

#### FIRST FOR AUSTRALIA

Allan Riordan and sons, Andrew and Ross, have long been advocates of rubber tracks on the Black Soil Breeza Plains. When the time came to look at a new Combine Harvester to compliment their New Holland TX68 Plus Combine, Allan started to get some pricing on the New Holland CR Twin Rotor Machines. Early in 2011 New Holland released the SMART TRAX Rubber Track System for the CR Combines produced in North America. Peter Kenny at Gunnedah knew this would be of interest to the Riordan family and faxed out the Release information.

It wasn't long before Allan was on the phone to get some pricing for the SMART TRAX option. Negotiations resulted in Allan ordering a machine and in November the first CR 9080 Twin Rotor Combine Harvester on SMART TRAX in Australia was delivered to Allan at Breeza. The machine has started in wheat and chick peas. One of the main reasons Allan purchased a machine on tracks was it's ability to get onto wet ground a lot earlier than conventional Rubber Tyred machines can. This results in getting the crop off to minimise losses due to down grading in wet summers, which we experienced last year and is happening again this year.

Picture shows Allan with son Ross on delivery of the CR 9080 Combine.

#### A NEW HOLLAND WORKMASTER 55 FOR LAURENCE BASSETT

For all those little jobs around the farm Laurence Bassett has chosen a new New Holland Workmaster 55 FWA tractor. At 55hp this will be an ideal little tractor for spot spraying, fencing, slashing and running a grain auger. The new Workmaster 55 will join Laurence's existing New Holland TD95D in the stable, pictured is Laurence at the delivery.

#### NEW HOLLAND BC5060 FOR WAYNE & GLENDA KEEL AT MANILLA

With the current hay season fast approaching, Wayne and Glenda Keel made the decision to purchase their own baler rather than relying on contractors and neighbours to bale for them and after talking to Goodwin Kenny's Hay technician Merv Leard the New Holland BC5060 was chosen. The New Holland BC5060 fitted with innoculant kit, hydraulic swing draw bar and plumbing/wiring for an accumulator produced well shaped and consistently dense bales on start up. Pictured: Wayne's sons Nathan & Dillon with Wayne Keel and Tamworth's Salesman Tony Housden.

### CHRISTMAS/NEW YEAR BUSINESS HOURS

Saturday - Christmas Eve	24th December 2011	<b>CLOSED</b>
Sunday - Christmas Day	25th December 2011	<b>CLOSED</b>
Monday - Boxing Day	26th December 2011	<b>CLOSED</b>

Monday - New Year's Day Holiday	2nd January 2012	<b>CLOSED</b>
Tuesday	3rd January 2012	8am to 5pm

#### Christmas Greetings

We would like to extend  
Seasons Greetings to all our  
customers and thank you for  
your business once again  
this year.

We are all looking forward to a few  
days off over Christmas- see our  
Christmas/New Year Business hours.

We hope 2012 brings good weather,  
good health and good times for all.

Have a safe and Happy Christmas

Susan Goodwin and Peter & Mark Kenny

### DWIGHT & GEOFF GALL'S NEW McHALE V660

To get a round bale size, shape and density to suit their new chaff mill, Dwight and Geoff have chosen the McHale V660 baler. The McHale V660 is a variable chamber round baler with the ability to control both bale density and Core density from the monitor in Cab, this will help the Galls optimise the Round bale core to fully unroll on the bed of the chaff mill. Pictured at Start up with Dwight Gall is Tony Housden, Merv Leard and Mike McCarthy from McHale Ireland who is a technical specialist sent to Australia for a few months during peak hay season to identify and resolve machine issues as they arise. The baler performed very well at start up with a heavy oat crop windrow.

### HEATH & DALE WHITE'S NEW McHALE 991BE

After a few years of hiring a wrapper Heath decided that given the number of bales he has been wrapping (up to 2,500) he could justify buying his own. Having previously used a McHale manual wrapper, choosing a new McHale wrapper with auto operation and monitor will make the wrapping process easier and more timely. The reliability of the McHale wrappers he has previously used was a strong factor in choosing the McHale 991BE Fully automatic wrapper with single wrap dispenser.

### NEW McHALE 991BE FOR MAX & TRENT RANDALL

After using contractors to wrap their bales over the last few years, Max and Trent decided it would be more efficient to have their own wrapper.

The McHale 991BE was chosen as a machine they had knowledge of and had seen operating and the simple

automatic controller once set up properly takes the hassle out of wrapping. Reliability is a key benefit of the McHale with many machines performing for over 10 years with only minor repairs. Pictured Max Randall, Mike McCarthy, Aslan Fleming, Trent Randall and Tony Housden.

### BRIDGE POLL HEREFORDS K-LINE SPEEDTILLER

Keith Plant, owner of Bridge Poll Herefords, had spent time researching various machines to cultivate areas of his Hall Creek property. After seeing the K-line Speedtiller in operation he came to the conclusion that it seemed like a more robust machine than the competitor machines. The Speedtiller is a good primary and secondary tillage machine, designed to operate at higher ground speeds to break clods and create a finer tilth. The discs are individually mounted with rubber buffers that allow each disc to vibrate and break clods, the rear bar roller carries the machine controlling depth of cut and also breaking more clods and producing a finer tilth. Benefits of reduced workings and fuel savings can be expected over traditional cultivation.

Pictured at start up is Farm Manager Dave Howlett.

### THE GLEN RURAL'S NEW SUPERIOR LNT94 SLASHER

Manager of The Glen – Goonoo Goonoo South, Joel Mace, was searching for a very robust single rotor slasher for general pasture and paddock work with about 8' width. A visit to the Superior Equipment stand at Ag-quip identified the LNT94 – Extra Heavy Duty (EHD) with a width of 2.35m and a 130Hp drivetrain as ideal to the task at hand. With a 6mm deck, solid rubber rear castor wheels, chain guards front and rear and a heavy duty Flex Hitch tower the machine is robust enough for many years of heavy use. Pictured is Joel Mace with Tony Housden.

### BIG TOYS FOR BIG BOYS

*The real man's wish  
list.....*

*New Holland  
Irrigation Engine  
- available at  
Gunnedah Branch.*

*New Holland Rustler and  
Workmaster for immediate  
delivery at Tamworth Branch.*

## **MONTHLY WINNERS**

*Congratulations to our New Holland Plush Toy Tractor Winners:*

*N Donaldson & Son - Boggabri, PA & TN Hird - Quipolly, Taloumbi Pastoral - Kentucky*

*This month we have 3 NEW HOLLAND Plush Toy Tractors to give away - simply return your payment by Friday 23th December 2011, to go in the draw.*

*We would also remind customers that we accept Visa & MasterCard over the phone and Debit cards may be used at Tamworth and Gunnedah Branches.*

*All payments by these methods are included in the monthly draw.*

*Electronic/Internet Payments on the last day on the month cannot be allocated until the next day - it would assist us greatly if payments could be made prior to the last day of the month to allow receipting and allocation to accounts prior to Month End.....thankyou*

*For customers that use Internet Banking, our bank account details are:*

**Commonwealth Bank**

**BSB: 062 602**

**Account Number : 00 272 029**

**Please use your account number, name or invoice number as a reference.**

**Don't forget to get your New Holland Toys for Christmas!**

## **..A GOOD EXCUSE TO INDULGE OVER CHRISTMAS**

Karan Diwan is a 51 year old TV health guru advocating a holistic approach to nutrition and health, promoting exercise, a vegetarian diet of organic fruits and vegetables.

She recommends detox

diets, colonic irrigation and supplements, also states that yeast is harmful, that the colour of food is nutritionally significant, and the utility of lingual and faecal examination.

Nigella Lawson is a 50 year old TV cook in Great Britain, who eats nothing but meat, butter and desserts.

**I rest my case...**

## **JUST TO KEEP YOU UP TO DATE:**

It is hard to believe that 2011 is nearly at an end, the year has been very busy with many deliveries of new machines and hopefully a good season to follow.

What is even harder to believe is that Gina has now finally finished Year 12, done her HSC (results still to come) and looking forward to new challenges. The culmination of her secondary school years will be Calrossy Speech Day this week, but the more glamorous event for the girls at Calrossy was their Formal held two weeks ago.

As you have shared many of her "moments" over the years and watched her "grow up" I thought I would share her Formal photo with you.

We were fortunate that my brother, Les, could leave his cotton crop west of Moree for a couple of days and be in Tamworth to share the evening with us. (And lucky the Formal was not a week later as Les has been pumping water for the last week or so.)

Pictured are Kodey Sinclair, Gina Goodwin, Susan Goodwin and Les Lillyman. For Tamworth customers you may see Gina looking a little different (less glamorous) as she is currently helping out in Spare Parts.

Have a Happy Christmas!

*Susan Goodwin....*
