

HOWARD SPRAYRITE SPRAYERS - A POPULAR CHOICE

Inglewood [Wallabadah] Pastoral Company's Farm Manager David Caslick is pictured at the recent delivery and installation of a new Howard Sprayrite linkage sprayer. The Howard Sprayrite has a 1000 litre tank with built in freshwater reservoir and 12 metre self levelling boom on an hydraulic lift mast incorporating an accumulator to reduce boom shock when spraying at speed in rough conditions. The Howard Sprayrite will be used extensively for pasture spraying and paddock weed control.

Also delivered during July were a Sprayrite 1000 litre sprayer with 12 metre boom to Terry Conventry, Bayley Park, Armidale and a 600 litre sprayer with 6 metre boom to Neil Menzies, Castlebrook, Armidale. Dave Henry (pictured below) chose a Sprayrite 1000 litre with 12m manual boom to add to his fleet of contracting Machinery. This sprayer is ideal for the smaller contracting spray jobs that Dave does. While Dave is not aiming to become a dedicated spray contractor he was after a sprayer that had reasonable capacity with a boom big enough to cover some country and yet small enough to spray into some of the tighter spaces that Dave encounters in the smaller holdings and small clean up jobs. Electric in-cab pressure and section controls make operation easy and safer. Dave is also utilising his New Holland EZ GUIDE 750 to ensure coverage and rate are accurate to provide the best job possible for his customer. Dave can be contacted on 0429 141 271 for spraying, slashing, baling and seeding work.

ROTARY HOE FOR GORDON AND PETER REID - Gordon and Peter Reid of Moonbi have chosen a Falc Rotary Hoe from Howard Australia to do the final ground prep for their Lucerne blocks. After having a disappointing result with a multiple pass ground prep last year, and borrowing a neighbours rotary hoe to tidy it up, Gordon and Peter decided to purchase their own machine. The aim is to get the ground preparation done in a more timely manner this year for optimum crop production. Pictured: Peter Reid & Tony Housden.

NEIL WATSON'S NEW FIELDQUIP SLASHER - Being time poor running the farm, his stud cattle and rural property business, Neil needed to be able to slash/pasture top his paddocks effectively without going to the cost of a delta wing slasher. Neil did some research and decided that a Fieldquip 12' slasher would suit his needs. The Fieldquip Gearmower 3300 is made in Queensland, with 3 rotors driven by Bare-Co driveline componentry covering 12' at a pass. The slasher body is a curved smooth top design allowing easy brush/blow down when moving between paddocks or farms to reduce the weed seed transfer. Neil chose to have the Slasher painted New Holland Blue to match his New Holland tractor. Neil's sale of 50 Poll Santa Bulls will be held on farm at Watasanta, Tamworth on Thursday 16th August at 11:00am - for more details call Neil on 0427 670 267 or go to www.wasantabullsale.com.au

NEW HOLLAND TELEHANDLER AT KLASEN'S DAIRY - In conjunction with Stan Cork Machinery Dorrig (the New Holland Industrial Dealer) Goodwin Kenny, Tamworth have supplied a New Holland LM740 Telehandler to Klasen Farms for use on their dairy and chicken farm operation in Tamworth. The LM740 was chosen with a few specific size and capability requirements in mind, and together with competitive pricing and included options made the New Holland a good option. The LM740 has a 4 tonne and 7.1m lift powered by an Iveco 120hp engine coupled to a 4 speed Dana Spicer powershift transmission and 4WD axles with 3 steering modes. Standard reversible fan and clear access to the radiator help keep the machine operating longer with lower maintenance in dusty and straw laden environments. The air conditioned cabin is an effective operator platform with clear visibility all round and the operator controls are easy to hand. The new machine with forks, standard bucket and 2.5m³ Light Materials bucket will complement an existing telehandler in hay handling around the farm and dairy, and quite possibly replace a dedicated loader in cleaning out and refilling the chicken sheds. Pictured is Tony Housden, Goodwin Kenny and Peter Klasen.

Boom Spray Nozzles Don't Last Forever

Your boom spray nozzles are one of the most neglected items on your farm, they are very crucial to the correct application of your crop chemicals.

Not only are worn nozzles going to cost you more money in wasted chemical, you will also be wasting money as lost income from missed spray areas (weeds and insects survive) and/or crop growth suppression through overdosing some areas of the crop or pasture.

If your nozzles are more than 2-3 years old and doing a few acres each year you NEED to test the outputs now.

While to your naked eye the nozzle orifice "looks fine" in some cases even a day or so of spraying can cause wear in the orifice sufficient to force replacement.

The best way to check if a spray nozzle is excessively worn is to compare the flow rate from your existing nozzles to the output from a brand new nozzle of the same type and colour. The output pattern is harder to check in the field, but if in doubt just replace the nozzles.

How to do it?

Wearing Gloves - Remove nozzles and strainers – clean and rinse both nozzle and strainer, an old toothbrush can be useful to help. Refit to the boom.

Fit 1 new nozzle somewhere on the boom.

Set the sprayer going with clean water in the tank at the same pressure you would normally use for your spraying.

Check the output from the new nozzle – measured into a jug over 60 seconds, record this and then check all the other nozzles.

If the outputs vary by more than 10%, either to the new nozzle or between the old nozzles, discard the nozzles and fit a full set of new nozzles.

GET YOUR SPRAYING SORTED WITH SILVAN

SILVAN SELECTA BOOMLESS NOZZLE KIT

Eliminate the need for a spray boom on your ATV with the durable single sided boomless nozzle kit that provides an efficient spray to 3.7m.

Description

- Attaches to your ATV rack and can run off your 12volt pump, Rakpak
- Can be set for spraying on either side depending on the type of coverage needed and the type of pump used.
- Ideal with 361-8000 series Shurflo Pump, 6.8L/min open flow

Part No: M99-74 \$188.00 inc GST M99-75 \$241.00 inc GST
Boomless Nozzle Kit 1 Jet Boomless Nozzle Kit 2 Jet

SELECTA 70 LITRE RAKPAK

The Selecta 70 litre Rakpak is ideal for safe and reliable spraying from most Quadbikes. The Rakpak features a choice of Shurflo pump, the Spotjet spray gun, delivery hose, wiring loom and straps to secure to it to the Quadbike.

Description

- Spotjet spray gun with 600mm stainless steel lance and adjustable nozzle
- Pump cover with pump On/Off Switch
- Shurflo 12-volt pump (6.8L/min 60psi or 11.3L/min 45psi)
- 6 metres of 8mm ID spray hose
- Internal baffles to reduce surge
- Drain plug for easy emptying
- Lance holder

Part No: RP70N-S1
\$760.00 inc GST

We are also the authorised dealers for:

Don't forget that our Tamworth & Gunnedah stores are open Saturday mornings from 9am to 12pm.

MONTHLY WINNERS

Congratulations to our New Holland Cap Winners:

MC & L Beck - Dorrigo, Cope Family Trust - Gunnedah, W Higginbotham - Loomberah

This month we have 3 NEW HOLLAND Caps to give away - simply return your payment by Monday 27th August 2012, to go in the draw.

We would also remind customers that we accept Visa & MasterCard over the phone and Debit cards may be used at all our Branches.

All payments by these methods are included in the monthly draw.

Electronic/Internet Payments on the last day of the month cannot be allocated until the next day - it would assist us greatly if payments could be made prior to the last day of the month to allow receipting and allocation to accounts prior to Month End.....thank you.

For customers that use Internet Banking, our bank account details are:

Commonwealth Bank

BSB: 062 602

Account Number : 00 272 029

Please use your account number, name or invoice number as a reference.

JUST TO KEEP YOU UP TO DATE

WEAN RACES - The 79th Wean Picnic Races were held on Saturday 7th July 2012 and we ventured to Wean again this year. The Race Day attracted 2500 people and was a benefit day for (the Award winning - National Champions) Gunnedah Junior Band who are raising money to travel to France where they have been invited to perform a number of concerts. The Band played during the day at Wean which added to the Picnic atmosphere. Although we did not have much luck with our betting skills and the bookmakers - except for Jamie, who again this year had all the luck - we had good weather, good company, good food and good music - who could ask for more?

Pictured: Kodey Sinclair, Gina Goodwin, Susan Goodwin, Sarah Norris, Lara Housden, Tony Housden, Sharon Housden, Jamie Rutter

You can see the Gunnedah Shire Band, and conductor Jason Katsikaris, perform on Saturday 18th August at 8.00pm at the Capitol Theatre.....
Phone 6767 5300 for bookings.

This is also a Fundraiser for the Gunnedah Junior Band to travel to France.

It is that time of year again -- **AGQUIP 2012 on 21st, 22nd, 23rd August - Visit us at the New Holland Site QR/31-35**

- Come and test drive the new T7.260 Auto Command tractor
- Check out the New Holland site and inspect the range of Combines Harvesters, New Holland built 45 ft Front, the new 4x3 Large Square baler, Tractors - large and small and Haymaking equipment
- Talk to the New Holland product managers about these products and the specifications that suit the Australian market.
- Discuss any New Holland product and go in the draw to win a Waeco Fridge
- Call in and have a chat and a cuppa - we look forward to seeing you there.

Susan Goodwin....
