

### New Holland Auto Steer

With the cost of farm inputs rising continuously, would you be interested in a method to keep those costs within a known parameter? Then take the time to look further into an Auto Steer system for your machine.

**Did I hear you say you are not big enough?** Well think again, anything that can keep you steering accurately to the last track will reduce your costs, no missed sections, no excessive overlap when you pulled the wheel around while looking backwards or talking on the phone.

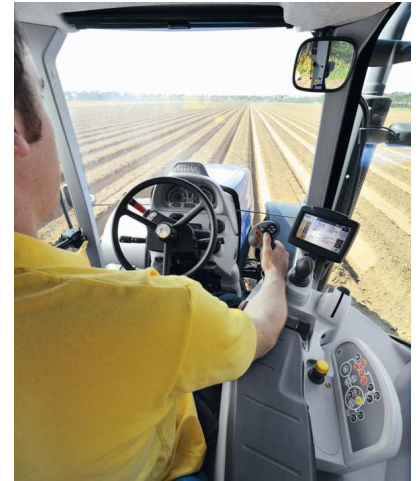

**Are your paddocks too wiggly and odd shaped?** Well think how much easier it would be to let the tractor guide you around while you concentrate on the operation of the seeder, sprayer, mower, windrower, header or the tractor.

There are 3 types of Auto Steer system – Fully integrated Auto Pilot in newer tractors, Ez-Pilot - a replacement steering wheel and hub, and the Ez-Steer foam wheel the turns your existing steering wheel. All 3 systems work with one of the New Holland guidance systems, the Ezy Guide 250, FM750 and the FM1000, different degrees of accuracy from 0.5m down to 2.5cm are possible, the more accurate you get the more expensive it gets.

#### **Why would you use Auto Steer?**

- Reduced fuel use (through correct overlap)
- Less seed and chemical required (through correct overlap)
- Less Compaction and higher yields (running in the same wheel tracks)
- Reduced operator Fatigue (can spend time watching the machine or organising on the phone)

New Holland offer a full range of Auto Steer options for many older and new model tractors. Call into one of our offices to see what option can work for you.

### New TD5

New Holland's long standing utility tractor has had a make-over, the versatile TD series tractors have been upgraded with the release of the TD5 series. The TD5 comes in 4 new models with 75, 90, 100 and 110 Engine Hp, all with the simplicity of manual transmissions operating through a wet clutch. The Forward/Reverse shuttle is now a column mounted Hydraulic PowerShuttle making loading operations easy and efficient. PTO horsepower is higher than traditional due to the use of a dry clutch PTO drive, which has the ease of hydraulic engagement.

The outstanding feature for the operator is the all new cab with better control layout, fully integrated joystick, better visibility and the fixed roof window, ideal for viewing the loader when filling the hay shed or putting the last layer on the truck. Until the end of June 2013 there is a 3 year/3,000 hour warranty as well.

**Goodwin Kenny have a TD5.110 at Gunnedah to view now, or call and we can send out a brochure or give you a change-over price for your old TD or other tractor to the new TD5 series.**

### New Boomer

The all new New Holland Boomer range is now in stock. The new models are from 20Hp all the way up to 50Hp and provide excellent value for money in the compact sized tractors. The new model Boomers have a taller profile, are slightly longer and come with some very useful features to make operating simple and easy.

The 30-50 Hp models come in a choice of manual (with Mechanical Forward/Reverse shuttle) or hydrostatic 2 pedal transmissions. All of the machines come with the Hydraulic outlets to mount a front end loader and a set of Remote Hydraulics on the rear ready to run any hydraulic implement you may have. With bigger wheel and tyre combinations the lift capacity of the loaders has increased over the older models. Comfortable ergonomic operator platforms make operations easy, from the tilt adjustable steering column, side mounted gear shift to the electric switch to engage the rear PTO, all to make your time on the seat productive and enjoyable.

**Call in today to test drive. We also have a New Holland Boomer 1025 with Mid Mount Mower and Challenge 4 in 1 Loader and a New Holland T1510 with Challenge 4 in 1 Loader in stock. These are run-out models and have special pricing.**

### The New - Shearer Hydraulic No-Til Seeder

This is an ideal machine for no-til seeding. With a Fixed frame design sitting on 4 floatation tyres, the individual seeding units are hydraulically loaded for work or retracted for transport from the cab. The front wheels are interconnected with the hitch to allow the machine to turn.

The Disc Opener / press wheel combination is mounted as individual parallelogram units. This seeder features an Electronically controlled hydraulic drive for the grain and fertilizer distribution system, allowing Sowing rates to be changed from the tractor seat during operation. The double disc opener can be swapped to a tyne configuration.

Call Tony Housden or Glenn Furner for pricing and specifications.

## Silvan's Agrex Spreader Range

- ◆ Professional quality Twin Disc Spreaders
- ◆ Suitable for both Broadacre Crop and Pasture applications
- ◆ Powder-coated and/or Stainless steel hoppers
- ◆ Stainless Steel spreading discs and metering componentry
- ◆ Fully adjustable metering and vanes for various rates and spreading widths
- ◆ Manual Lever or Hydraulic rate adjustment
- ◆ PTO and Hydraulic spinner drive options
- ◆ Load cell and electronic control options

### 3pl Spreaders

Agrex SDA – 800lt to 1,200lt Hopper capacity models

Agrex XPI – 1,500lt to 2,500lt Hopper capacity models

Agrex DDI – 2,000lt or 3,000lt Hopper capacity models

### Trailed model for Broadacre or Rowcrop spacings

Agrex Maxi and Maxi High Clearance with 4,000lt up to 10,000lt Hopper capacity models

Single and Tandem wheel options.

Call in to any of our branches today for more information.

## ENGINE COOLANT

All modern tractor and machinery engines require a quality coolant, checked and replaced at indicated service intervals to maintain proper operating temperature and engine life. Coolants, like oils, have various specifications relating to the engine type, the type of metals and seals used in the engine cooling system, the operating environment (cold mountain country) and the load placed on the engine, using the incorrect coolant OR the incorrect ratio (coolant to water if applicable) can lead to very expensive engine and cooling system repairs. New Holland Coolant contains specific levels of compounds that reduce; the pitting of cylinder liners, general corrosion, assists with anti-foaming and reduces the freezing point. New Holland supplies coolant Premixed ready to use, refill the system and no need to

add water. It is not good practice to mix different types and brands of coolant except to get you going for a short period after a breakdown.

*How often should you check or replace the coolant?* Firstly, the coolant level in the radiator or header/expansion tank should be checked every day before use of the tractor. Most New Holland tractors have a maximum service interval of **1,200hours or 2 Years**; in some extremely heavy applications it may be better to reduce this interval. Your Operators Manual gives a good guide to the procedure to replace coolant and clean out the cooling system – as always if you need to check how to do this or if it is easier to get the job done for you, please call either our Tamworth or Gunnedah Service Departments.

## AVOID COSTLY REPAIRS

Have you finished sowing?

Have you finished baling?

**Now is the time to get your tractor or baler serviced.**

**Save 10%  
On Filters,  
Oils,  
Belts,  
Labour  
& Travel**

Book your Tractor or Baler service now and receive a 10% DISCOUNT on Filters, Belts, Oil, Labour & Travel

Contact Ken Hatton at Tamworth on 6765 5244  
or David Pease at Gunnedah on 6742 5777.

*Hurry, book your service in now because we are only extending our Service Special for this month!*

## WEAN PICNIC

## RACES

**SATURDAY 6TH JULY 2013**

Boggabri Rotary are raising funds for a skate board park in Boggabri.

**COME RACE WITH US, AND HELP THEM BUILD IT!!**

Keith McPhie

GUNNEDAH - 6742 5777

ARMIDALE - 67728124

When servicing your machinery use genuine New Holland filters, fan-belts & oils.

## TOY OF THE MONTH

NEW HOLLAND  
MANURE SPREADER  
Scale: 1:16  
Part No: ERT13721DS  
\$58.91 inc GST

And for the little farmer - don't forget we sell New Holland Toy Ride-On Tractors.

## BARGAIN BIN'S AT TAMWORTH & GUNNEDAH

It is Stock Take Time so the Bargain Bin's are being topped up.

You never know what you might find!!

### 200L DieselPro 12V

#### Features:

- UV stabilised diesel grade polyethylene polytuff tank.
- 12 Volt BP300 Piusi self - priming pump.
- 45 L/min open flow.
- Lockable filling cap & cover. \$1,129.00 inc GST
- Auto shut off gun. Part No: SQDN200L- X1

### 400L DieselPro 12V

#### Features:

- IBC approved container for diesel fuel.
- 12 Volt BP300 Piusi self - priming pump.
- 45 L/min open low.
- Baffled tank to reduce surge when travelling.
- Lockable filling cap cover. \$1,439.00 inc GST
- Auto shut off gun. Part No: SQDN400L- X1

### HAY/SILAGE TINES

All Tines are made of Spring Steel - Made in Germany by SHW

	Part Number	Description	Price (inc GST)
Conus I	CH003005001	120mm Tine Sleeve	\$17.68
	CH003005003	810mm Straight Tine	\$49.50
	CH003005004	1100mm Straight Tine	\$58.93
Conus II	CH003005002	120mm Tine Sleeve	\$32.81
	CH003005005	980mm Straight Tine	\$95.47
	CH003005014	1100mm Straight Tine	\$134.11
	CH003005006	1250mm Straight Tine	\$100.18

## DON'T BE CAUGHT OUT WITH A FLAT BATTERY!

SPARE PARTS NOW HAVE A RANGE OF GENUINE NEW HOLLAND EXIDE BATTERIES FOR YOUR TRACTORS AND MACHINERY.

THESE BATTERIES ARE AUSTRALIAN MADE.

Tamworth & Gunnedah Branches are open Saturday mornings from 9am to 12pm.

## MONTHLY WINNERS

*Congratulations to our New Holland Beanie Winners:*

*W J Picton - Curlewis, Simon Marheine - Willow Tree, B R Druce - Boggabri.*

*This month we have 3 NEW HOLLAND Beanies to give away - simply return your payment by Tuesday 25th June, 2013 to go in the draw.*

*We would also remind customers that we accept Visa & MasterCard over the phone and Debit cards may be used at all our Branches.*

*All payments by these methods are included in the monthly draw.*

*Electronic/Internet Payments on the last day of the month cannot be allocated until the next day - it would assist us greatly if payments could be made prior to the last day of the month to allow receipting and allocation to accounts prior to Month end.....thank you.*

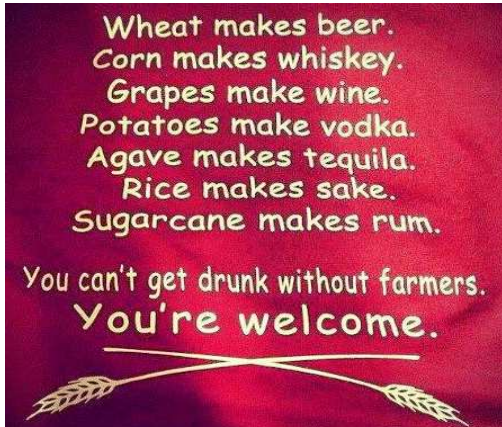

*For customers that use Internet Banking, our bank account details are:*

**Commonwealth Bank**

**BSB: 062 602**

**Account Number : 00 272 029**

**Please use your account number, name or invoice number as a reference.**

### **NEW HOLLAND BOOMER 1025**

4WD, 26HP, Hydro Transmission, Challenge 4 in 1 FEL, Canopy, 5' Mid Mount Deck  
\$21,500.00 inc GST at Tamworth

### **NEW HOLLAND T1510**

4WD, 31HP, Hydro Transmission, Ag Tyres, Challenge 4 in 1 FEL, Canopy.  
\$23,400.00 inc GST at Gunnedah

### Just to keep you up to date:

We welcome Christine Moore to the Tamworth office. Christine is responsible for Reception and Accounts Receivable and has already met a few familiar faces since commencing in April.

For many years now I have been wanting to go to Art Lessons – not sure if there is much talent, but there is passion, so with Gina heading off to Quambone to live I finally booked myself into the Tamworth Community College Art (Draw and Paint) lessons with Maria Henry.....and I am loving it.

After seeing some of my sketches Sharon Housden (Calrossy P&F Secretary) asked me if I would do a sketch that could be used as a prize at the Calrossy Mother's Day Lunch held on Saturday 11<sup>th</sup> May. The Calrossy Girls P&F organised a lovely lunch with 130 Mums and daughters (some sons), past students, Old Girls and friends in attendance.

Isobel Knight

Tony Housden, David Grellman & Rob Lamph

Susan Goodwin & Ann Barwick

There was a contingent of Dads

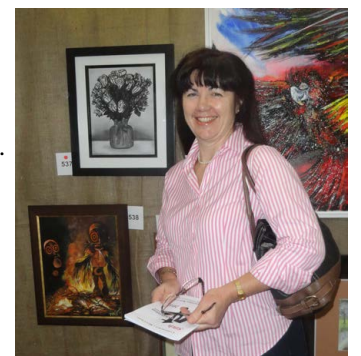

in Pink Aprons who served the

delicious Buffet and waited on the ladies. The Guest Speaker for the lunch was Isobel Knight. Isobel is a past parent of Calrossy, a Past P&F President and has recently been named RIRDC Rural Woman for NSW/ACT (she will face National judging in October).

Isobel runs ProActive – a business that deals with Family Succession Planning in rural Australia. ([www.proActive.com.au](http://www.proActive.com.au))

I thought that my sketch would be a bit of a novelty prize (being done by another Past P&F President) - it turned out to be the major prize! And a lovely lady, Ann Barwick, won the drawing and lucky for me, was delighted with it. This was a most enjoyable afternoon organised by Calrossy Girls P&F President - Kylie Lamph, Secretary - Sharon Housden and their Committee.

On Mother's Day we had our usual outing to Currabubula Art Show. I did not tell anybody that I had submitted another drawing into the Art Show (last year I did jokingly say to Gina that I would be exhibiting there before her). Anyway, Sharon and Tony got a big surprise, and I got an even bigger surprise when I found my drawing had been "sold" - see the Red Dot in the photo. It was a surprise, a shock and a huge rush, then I thought Tony had bought it as a joke, but he maintained that he had not. Anyway, I have since found out that Sharon bought it (unbeknown to Tony) and it is hanging in their Dining Room as she loved the Calrossy sketch. Now what am I going to give her for Christmas?? Sharon she said that it was the best \$250 she had spent in a long time to see the surprise and delight on my face. We then travelled back to Tamworth for a lovely lunch under the trees enjoying the rest of the day. So, from My Mother's Day wish list the only thing missing was a good fall of rain!!

*Susan Goodwin...*
