

TRACTOR + LOADER + MULCHER + SPRAYER + SEEDER + SPREADER = EASY WORK

After buying a local property Jason Taylor needed a full suite of equipment to maintain and operate the farm. Goodwin Kenny were chosen for their ability to provide a new New Holland tractor and the full range of implements Jason required.

The New Holland T5050 tractor with a Challenge Front End loader, 4 in 1 bucket and pallet forks was chosen as a good 100horsepower utility tractor. The New Holland T5050 has a wet clutch transmission, manual transmission with a 2 speed Powershift and electro hydraulic forward/reverse shuttle. The cab is spacious and quiet.

Jason has also taken delivery of a Nobili BNG230 Flail mulcher which will be ideal for pasture renovation by returning organic matter to the soil much quicker than a traditional slasher. The Silvan 800 litre Pasturepak boom spray will be used for general spraying of pasture and crop areas as well as weed control around sheds, fences and out of crop areas with the attached hose reel and spot spray gun.

The Silvan SX500 spreader with galvanised hopper has the job of improving pasture and crop fertility, spreading up to 12 metres in width with adjustable vanes and the ability to change spreading direction either to the left, the right or centre.

Davimac manufacture the ED Seed Drill Jason has chosen that is ideal for the seeding requirements on his farm. The ED drill is a 20 run direct drill, fitted with inverted 'T' boots, the same running gear and seed/fertilizer distribution system as Davimac's larger drills and a drawbar or 3 Point linkage hitch. The Davimac ED drill is a very manoeuvrable and compact machine that can sow small seeds through to larger cereals & tropical pasture seeds & its manoeuvrability will prove useful in the smaller horse paddocks on the farm.

Jason Taylor & Goodwin Kenny Technician Levi Alley

To complement their recently purchased New Holland Boomer 50 tractor and loader, Alston and Geraldine McKay, pictured at left, have added a new New Holland 930GBH backhoe. The 930GBH is specially designed to be easy to remove and refit having its own built in chassis system and not attaching to the three point linkage. Alston and Geraldine will use this latest gadget on their Mullaley property planting trees and doing general maintenance around the farm.

Over the three days of Agquip many visitors to the New Holland Site had the opportunity to enquire about new machines and discuss their farming

needs with New Holland and local dealer personnel. There was also the added incentive of entering their names into a Lucky Prize Draw to win a Waeco CF-80 Dual Zone Compressor/Fridge/Dairy/Freezer. The lucky winners were Walter and Glennie Scott, Gunnedah, pictured here receiving their prize from Dean Marsh, New Holland Business Manager – Northern NSW & Goodwin Kenny Salesman Glenn Furner.

HAY & SILAGE IMPROVER

HY-SI is a preservation management tool that works by accelerating the conversion of sugar to organic acid (pickling agent). HY-SI contains no living bacteria, but does contain nutrient rich fermentation by-products, enzymes and a completely non-toxic form of cobalt resulting from the Dextro-Lac process.

By creating lactic acid more rapidly, more energy and protein is preserved in hay and silage for increased milk and meat production.

Just to keep you up to date:

Rotary Battle Of the Brains III was held on Friday 11th October. Goodwin Kenny entered our Circulus Amicorum (Circle of Friends) team consisting of Margie Pink, Sharon and Tony Housden, Christine Moore, Jamie Rutter and myself. Unfortunately our other two friends, James and Jodie Vince, were delayed by a flight and did not make it to the evening of fun. This year the event coincided with Mental Health Hat Day and our team was decked out in fabulous hats decorated with tractors—what else ??? There was a prize for the best team of hats and we were beaten by a team of Egyptian Pharaohs who looked great. Again, this year, our strengths seemed to be in the Long Round Puzzle, Music trivia and the General Knowledge and Geography questions—a good indicator that we are thinkers, we like a good beat and we know where we are going! We finished a creditable 8th in a field of 20 teams with all proceeds going to local charities.

Congratulation to the winners on the night - Southside Uniting Church & thanks to the organisers - Rotary Club of Tamworth Sunrise.

Richard Kenny 8.1.1974 to 29.10.2013

We are sad to advise the passing of Richard Kenny.

Richard was the youngest son of the late Pat Kenny & Fran Kenny and the younger brother of Anne, Mark, Peter, Michael, Matthew, Deidre and Julie (deceased).

Richard worked at Goodwin Kenny from September 1999 to February 2002 in Administration and Spare Parts. One of his great loves was cooking and he moved to Sydney to pursue that career. After working as a Chef in various establishments a career change saw him join the NSW Police and he graduated from Goulburn Police Academy in May this year and was then

stationed at Manly. Not long after starting his new appointment he fell ill and was diagnosed with Cancer, which ultimately claimed his life on 29th October 2013. Richard is survived by his wife Serena & young son, Eaden.

Our thoughts, prayers and deepest sympathies are with the Kenny family.

....Susan Goodwin
