

New Holland Mower Conditioner put to work

After battling to get a cut of hay produced earlier in the season using contractors, Rob Segboer made the decision to purchase his own hay plant again. Having had a good run previously with New Holland hay equipment, Rob has decided to get another New Holland mower conditioner. A New Holland H7230 Discbine was chosen because of reliability, speed of cut, quality of conditioning and back up of a dedicated hay technician at Goodwin Kenny. Rob is pictured at right with Goodwin Kenny Hay Technician Merv Leard and Apprentice Nathan Keel. To speed up the hay process Rob has also purchased a Sip 600/20T twin rotor side delivery rake, with the ability to rake 2 rows individually or combine 2 into 1 this gives the greatest degree of flexibility in hay production. The 2015 SIP hay rakes saw a number of improvements to what was already a very reliable rake.

DAVIMAC

Davimac chosen by Bareela Past

Neil Smith, manager of "Bareela" at Barraba, has been looking to reduce his reliance on contractors for pasture improvement. After researching a number of options Neil decided that the Davimac TD drill would suit his needs. The 20 Row TD is set up on 600lb break out RFM spring tines, individual swivelling press wheels and a small seeds box to ensure the best opportunity of getting a good strike of whatever pasture or crop seed you are sowing. Pictured are Neil Smith and his son Luke at delivery.

Silvan and Casotti combined for better spraying outcome

With some tighter hill country to spray on his Walcha property

Todd Ireland was looking for an alternative to using his trailed boom sprayer which is prone to damage in those tighter areas. Todd has purchased a Silvan 800 litre Pasturepak with a Casotti spray unit. The Casotti spray unit runs at high pressure with oscillating wands to create very good spray coverage of blackberry, scrub and pasture. With Casotti sprayers being proven over many years Todd is looking forward to improved pasture and spraying results.

Todd is pictured at right with his

Silvan/Casotti after operating instruction and installation at Tamworth.

Kverneland Rake loaded and ready to go to Bingara!

As Clint Langan's hay production is increasing with a new irrigation pivot in operation, he realised that a larger hay rake would save him time and money in preparing windrows for his New Holland round baler. Initially Clint thought the budget would not stretch to the price of a new twin rotor rake, so he was looking for a "used" machine but struggled to find anything in good condition. Fortunately, Goodwin Kenny had an new "aged stock" Taarup 9578C Centre delivery twin rotor rake at a price that made the step to "new" affordable for Clint. After doing some research and following a start up by Merv Leard (Hay Technician) Clint was very happy with the rake and the windrow it presented and the centre delivery is ideal for making hay on his new pivot. Pictured during loading is Jed with his Dad Clint Langan.

bogballe

Information and Demonstration Day Thursday 18th February

Goodwin Kenny, in conjunction with Techgrow International, will be conducting an Information and Demonstration Day on the Bogballe range of spreaders at Don Finlay's property, **MARLO at Mullaley** on Thursday 18th February.

Representatives from Techgrow, the direct importers of Bogballe will be on hand to give customers an overview of the range, features and benefits. There will be a Bogballe machine in operation for customers to see these spreaders operating in the field.

All welcomefor more information and directionscall Peter Kenny at Gunnedah on 67425777

Ken Hatton
Tamworth

Service Manager at Tamworth. Over 10 years with Goodwin Kenny. Experienced with New Holland, Fiat, Case & Ford tractors & Air Cond.

Merv Leard
Tamworth

Over 19 years with Goodwin Kenny. Specialist with New Holland Balers, mower conditioners and haymaking.

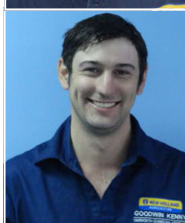

Levi Alley
Tamworth

Commenced training as Apprentice in 2005 & now has over 10 years with Goodwin Kenny. All Tractors and licenced for Air Conditioning.

Con Smit
Tamworth

Over 31 years with Goodwin Kenny. Has worked on many Fiat tractors and crawlers and is now passing on his knowledge to the others.

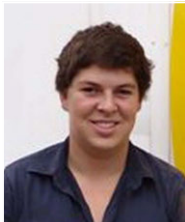

Nathan Keel
Tamworth

Commenced Mechanical Apprenticeship in 2014. Working with Merv to acquire knowledge of Balers & Haymaking gear.

Luke Wiegold
Tamworth

Luke completed his Work Experience with Goodwin Kenny last year and starts the First Year of his Apprenticeship in 2016.

Lachie McArthur
Gunnedah

Lachie has now completed the 4th Year of his Apprenticeship, commenced in 2012, and he now has an Air Conditioning Licence.

Andrew Bell's Muller Accumulator

After some time away from serious haymaking, Andrew has decided to put some more country down to Lucerne and needed to replace some equipment he had previously sold.

Goodwin Kenny Hay Technician Merv Leard and Hay Apprentice Nathan Keel installed a new Muller Engineering Accumulator onto the rear of Andrew's New Holland 317 baler.

The Muller is a 15 bale accumulator with Electric over Hydraulic control for ease of isolating the tip function on a corner. Pictured with his new Muller Accumulator is Andrew Bell and Goodwin Kenny Tamworth Salesman - Tony Housden.

Wind Speed & Spraying (Always follow label parameters for wind speed, see restraints below)

Wind speeds are critical when spraying. If windspeeds are too low or too high, chemicals may not be applied correctly to the target crop leading to poor results, increased drift and possible off target damage. The following table offers a simple method of assessing wind speeds.

Approx. Air speed at boom height	Description	Visible Signs	Spraying	
Less than 2 km/h	Calm	Smoke rises vertically	Spraying is "off label" at less than 3 km/h	
2-3.3 km/h	Light air	Direction shown by smoke drift	Avoid spraying	
3.2-6.5 km/h	Very light breeze	Leaves rustle, slight wind felt on face	Day	Night
6.5-9.6 km/h	Light breeze	Leaves rustle, wind felt on face		
9.6-14.5 km/h	Gentle breeze	Leaves & twigs in constant motion		
*15-20 km/h	Gentle to Moderate	Raises dust and loose paper		

Source: ChemCert and TeeJet

DAVIMAC

Davimac Drills

ED - Economical small drill - 16 or 20 Row at 150mm Spacing sowing over 3 bars, 2.4 or 3.0 metre sowing Width (2.9 or 3.5 metre Overall Width). Coil tines.

DF - Sowing Width and Overall width is the same Maximising sowing width with smaller gateways etc. 20, 24 & 28 Row options at either 125mm or 150mm spacing, sowing over 4 bars, 3.0 to 3.6m sowing and Transport Width. Coil Tines.

SD - Most popular and versatile machine in our district - 16 or 22 Row at 150mm to 250mm Spacing sowing over 3 wide set bars, 3.3 to 4.0m sowing Width (4.25 to 4.75m Overall Width). Coil or Spring Release Tines.

TD - 16, 20, 24 or 28 Row at 175mm to 250mm Spacing sowing over 4 wide set bars, 4.0m to 4.55m sowing Width (4.75m to 5.8m Overall Width) 400 or 600lb Spring Release Tines or Double Disc units, Bin Capacities up to 970 litre for Seed and Fertiliser, High Ground Clearance for travel.

All Davimac Seed Drills offer reliable, fully variable seed and fertiliser rate setting, excellent trash flow with the option of Small Seed Box, coulters to cut through trash and Press Wheels, Rubber Tyre Roller or Harrows.

Are you looking for parts for older balers or cheaper parts?
We have some used and "new" old stock parts for: New Holland 317 Small Square Baler, New Holland Super 417 Baler, New Holland BB940AP Big Square Baler, SIP 470 Rake

- 12 volt BP3000 Piusi self-priming pump • 45L/min open flow
- Strong double walled pump cover protects the pump and tank breather from unwanted access
- Padlockable pump cover (padlock provided) • Lockable filling cap
- 5 m of 3/4" delivery hose with swivel and crimped fittings
- 4 metre wiring harness with alligator clips • Anti static earth strap
- 8 mm brass inserts to mount unit to a tray
- Suction foot screen filter on internal suction line
- 30 min duty cycle, 30 min on/off

*Prices include GST

REMINDER: Nozzles DO NOT last forever – they wear and put out an uneven pattern – 2 years is about the maximum time you will get from a low use boomspray – nozzles can also be worn out and need replacement after just a couple of weeks use depending on the chemical you are using. If you have non drip nozzle bodies you should also remove the cap and inspect the diaphragm, clean and reassemble.

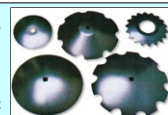

POINTS and DISCS in STOCK

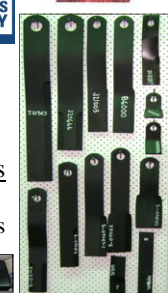

Scarifier, Combine, Trashworker, Chisel Plow Points, Sweeps, Discs for Connor Shea, Shearer, Jarrett, Davimac, IHC, Gyrat, Simplicity.

Talk to us about parts for IH 3-4 and IH 3-5 Disc Ploughs
We have Great Western Tillage Discs available to suit all types of ploughs.

Joke of the Month

HANDYMAN HUSBAND

Wife texts her handy husband on a cold winter morning: **"WINDOWS FROZEN ~ WON'T OPEN"**

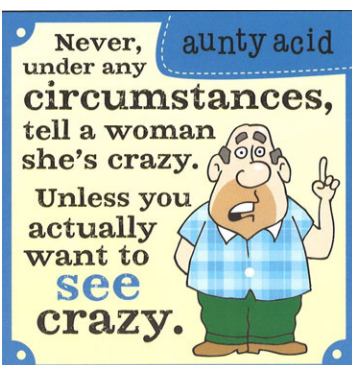

Husband texts back: **"GENTLY POUR SOME LUKEWARM WATER OVER THE EDGES AND
THEN TAP EDGES SHARPLY WITH HAMMER"**

Wife texts back 5 minutes later: **"LAPTOP REALLY BUGGERED NOW...."**

Just to keep you up to date: Did January seem to go quickly? I am sure it felt that way for all the children who are now back at school or was it because Tamworth was busy with Country Music for two weeks or because there was good rain and we were trying to get all those jobs done on the dry days? For me Country Music provided a couple of outings - Murphy's Pigs at Joe Maguire's Pub on a Sunday night in the Beer Garden with a few friends which was most enjoyable, then The Pigs at the Long Yard late on a Saturday night with one of my former apprentices, Ross Aylwin and his wife Sonia and her fun family, the Vellas, was entertaining - it was lovely to be invited and generous of the family to share the dance floor with "this single lady", and then Sunday afternoon at the Long Yard for the Bushwackers Chardonnay Concert was just the perfect place to have a few cold Coronas with Sharon and Tony Housden and a few "new" friends.

As I rip another page off my "Aunty Acid" Calendar (a Christmas gift from Jamie Rutter - I think it was an effort by Jamie to get my day off to a cheery start!) I have a chuckle and I thought I would share a few of the more appropriate pages with you during the year, some are best not shared, but the staff seem to get a bit of a laugh when they have a look. And our words of wisdom for this month "Knowledge is knowing what to say, Wisdom is knowing when to say it".... *Susan Goodwin*
