

Installation and Safety Induction at NSW Department of Industry

The New Holland T4.95 tractor that was supplied last month to the NSW DPI Cotton Research Centre Narrabri has now been fitted with an integrated Trimble steering and Guidance system and as such was ready for operator training. The large crew of operators and support crew (pictured) from Narrabri were shown over the tractor by Levi Alley – Goodwin Kenny Tamworth Service Technician and

Tony Housden - Goodwin Kenny Tamworth Salesman. The Start-up installation is done with all tractors delivered by Goodwin Kenny and with an organisation like DPI it is important to ensure all operators are competent and confident about using the New Holland tractor.

Sprayer update for Graeme Whitten

After many successful years using a home-made spray boom Graeme was looking to upgrade to a well-made hydraulic fold linkage boom with full nozzle protection. After looking at options Graeme decided that the Hustler Equipment - Katipo 1150 with 12m Hydraulic fold would be suitable. Graeme has optioned the unit with triple nozzle bodies. Standard inclusions on this unit are flush tank, hand wash tank, small toolbox and a large swing out bin that will hold spare chemical or a foam marker, galvanised frame and boom with industry standard fittings make this a very solid and practical boom spray.

Josh Peake
Gunnedah

New to the Service Team at Gunnedah, Josh is keen to get to know more about the New Holland product and meet our customers.

Fencing time at Loomberah

With quite a bit of fencing to upgrade Steve Rafferty, manager for Franco & Co Pty Ltd has chosen the Digga Ramdrill for its ease of use and safety. The Ramdrill features all Hydraulic operation, mounted on the 3 point linkage, the Hydraulic motor drills the hole and the Ram is used to raise and lower the Auger.

While Steve may not necessarily be looking forward to using the Post Hole Digger - it will certainly make the work a lot easier. Picture shows Steve taking delivery of his new Digga Ramdrill.

DIGGA PD5-5

- Hydraulic Post Hole Digger
- 2014 Model
- 450mm (18") A6 MFT Auger
- 75mm Square Drive
- Demo Unit
- Drilled 12 holes.
- JCB Hitch and Frame (Can arrange other hitch if need be)
- 2.2m Hoses with Flat Face Couplers.

\$4,400.00 inc GST

Australian Made

Small Baler Maintenance - Did you Know? By Hay Service Technician Merv Leard

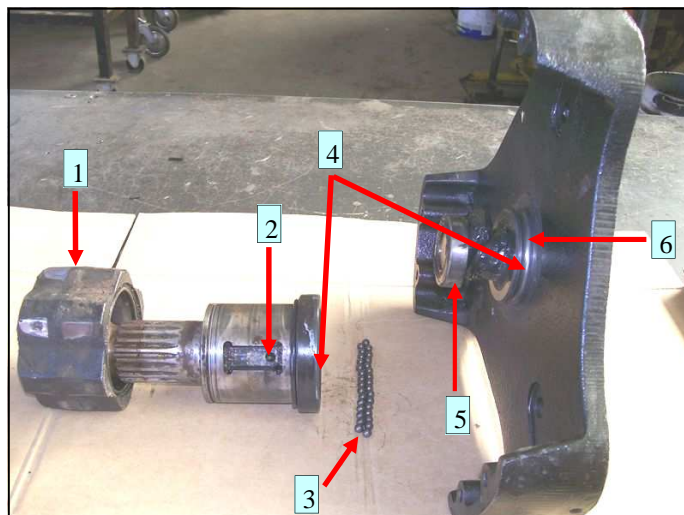

The clutch assembly fitted to the New Holland BC5060 and BC5070 Small Square Baler is a different system to all other New Holland Small Square Balers. The BC5060 and BC5070 Baler run down system rotates on a ball bearing (5) at the front and a ball bearing pack (3) at the rear. This also locks the rundown clutch in position where all other systems fitted to earlier models of New Holland Small Square Balers rotate on a bronze bush.

It is therefore important to grease the BC5060 and BC5070 more often and make sure the grease is being expelled out the rear of the run down clutch hub (6) to ensure the ball bearing pack (3) is being greased properly. This will also grease the run down clutch through the grease ports (2).

If the clutch assembly fails in this area there is not a lot that can be done to repair the system except replace the whole clutch assembly which will be costly.

Key:

- (1) Clutch Hub
- (2) Grease Port
- (3) Ball Bearing Pack
- (4) Ball Bearing Pack Track
- (5) Ball Bearing
- (6) Frame Mount to Flywheel.

Still A Hot Deal!

Regardless of hours worked, your tractor should be serviced every 12 months

AdBlue – Not the big issue we once thought ????

The New Holland EcoBlue (AdBlue) system was introduced to 125hp and bigger tractors about 4 years ago. Whilst it is primarily an exhaust gas emissions system to help the environment it does have a couple of significant advantages for the owner and operator. Because the New Holland system does not use any Recirculated Exhaust gas the engine runs cooler and produces more power with less fuel by the simple fact the engine tuning can be optimised based on clean cool air. Other by products are the responsiveness of the engine to varying loads and the reduced noise output of the engine.

While there is a cost to put AdBlue liquid into the tractor this is offset by the fuel savings over time. The Goodwin Kenny experience has been that some of the tractors we have sold have used very small amounts of AdBlue due to the environment they are in (Tablelands and high humidity) or the workload they are operating under.

Call into the Spare Parts Departments to talk about your AdBlue needs.
We sell AdBlue in 20 Litre and 205 Litre Drums.

When servicing your machinery use genuine New Holland filters, grease, fan-belts and oils.

For Internet Banking, our bank account details are:

Commonwealth Bank BSB: 062 602 Account Number 00 272 029

Please use your account number, name or invoice number as a reference.

JOKE OF THE MONTH

...THEY SLIPPED BEHIND THE BARN AND QUICKLY REMOVED EACH OTHERS HARNESS. THERE, WITH NOTHING TO REIN THEM IN, IT WOULD BE A NIGHT OF UNBRIDLED PASSION.

Keeping you up-to-date: Currabubula Art Show & Sale held on 12th-15th

May was a successful event for some local artists including the group that I paint with. Last year I reported that we weren't winners, but this year I am pleased to report that

Blagoj Ristevski (pictured above) was announced as winner of the Local Artist category for his "Lemons" and another of our group, Elaine Abberfield, received a Highly Commended in the Local Artist. Added to this was the delight of the group selling four miniatures and two larger paintings. My thanks to the committee at Currabubula who kindly displayed my Wean painting and the Wean Poster along with my "Homecoming" painting.

Elaine Abberfield, Cath Neill, Maria Henry, myself, Blagoj Ristevski and Kate Cullen

It all starts with a toy car or a pedal

tractor and then there is a lifelong love of motor vehicles and tractors.

The **Shannons Motor Show at TRECC** on 14th & 15th May

provided a great display of vintage and classic cars and this year there was also a selection of beautifully restored tractors owned by John Barwick, Winston Roworth and Owen Jones to look at as well as the McCormick (pictured) owned by Ron Haling. If you missed this show you will be able to see the vintage tractors at the **Rotary Dungowan Village Fair and Motor Show on 15th & 16th October - so save the date.** "Corvettes" were the theme car for this year, and while most people talk about a little Red Corvette, my favourite car was the 1956 Blue and White Corvette.

Rotary Club of Tamworth Sunrise held their "Las Vegas" Casino Ball on 21st May and this was a most enjoyable night - Elvis even made an appearance and sang a couple of songs. Some of the funds raised from the night were donated to the "Buy a Bale" program and locally to Billabong Club House. What a glamorous group snapped with the Vegas Showgirl!! **Tamworth Jockey Club Ladies Day** is on Saturday 25th June with a Chicken & Champagne Lunch in the Function Room - to book call Kay on 02 6765 9387 or email kay@tamworthjockeyclub.com.au

The **Australian Wool Fashion Awards** are being held on Friday 24th June at the Tamworth Regional Gallery with a Fashion Parade. Goodwin Kenny, in partnership with New Holland Agriculture, is a sponsor of the Awards this year and we have been assigned the Evening Wear category. Now some may ask "what has wool and evening wear to do with tractors and machinery?" and the answer is that the awards encourage the use of wool and they also encourage the next generation of designers which is something that I am pleased and proud to support. (I also would love to enter the awards one day-when time permits!!) Tickets can be purchased on the website WWW.TAWFA.COM.AU

If you would like to receive our Newsletter by email please let me know by sending your email address to sgoodwin@goodwinkenny.com.au and you can also keep up-to-date by liking our Facebook page.
