

### Farewell to the Fiat

After 29 years the Young family at Glen Collin Cattle Co have begrudgingly said farewell to their trusty Fiat 100-90DT tractor after parts were unable to be sourced for repairs. The Fiat was delivered to Jim's father, Bob Young, in December 1988 and has given good service over many years but the time had come to update so Jim and his sons, Richard and Peter, chose a New Holland T6070 Plus with Challenge AP38 Plus front end loader as the replacement.

This is the fourth New Holland tractor to be delivered to Glen Collin and Sallywood where they are already

operating a New Holland T6080, a T7.220 and a T7.190, so this latest tractor will look like part of the family at Walcha. Pictured at start-up on a very cold wintery day are Peter, Richard and Jim Young with the new T6070 tractor.

### Double delivery to Lake Keepit farm

Rod Hojer was recently looking to update his Case JX95 tractor and chose a New Holland T5.115 tractor with Challenge AP35 Plus front end loader. The T5 tractor has Electroshift transmission and will be used for mowing and baling duties. Rod also had a Case JXU105 that he decided to update to a New Holland T6070 LS tractor with a Challenge L4200 front end loader.

The T6070 has 140 horsepower and the L4200 loader has a maximum lift height of 4238mm and a capacity to lift heavier weights. The tractor/loader combination will do the bulk of the hay handling and heavier chores around the farm. CNH Industrial Finance offered some attractive EOFY rates which Rod was able to take advantage of. Rod is pictured at delivery with both tractors.

### Mower Conditioner update in Tamworth

Pictured at the in paddock start-up of a New Holland 313 Mower Conditioner is Cameron Wilson with Goodwin Kenny Hay Service Technician, Nathan Keel.

The New Holland 313 mower is a Discbine with 8 discs, Chevron Rubber Rollers and 2 point swivel hitch and has a cutting width of 4.0 metres. This New Holland 313 mower replaces a New Holland H7450 mower and will be used in Retaru's intensive haymaking operation. The Mower Conditioner comes with a

2 year Warranty. Goodwin Kenny have already retailed five of these machines

this year and will have a New Holland 313 on display at Agquip or at Gunnedah branch prior to the Field days.

**Goodwin Kenny - Gunnedah** will shortly be running a **Demonstration Program** with the New Holland T7.315 Heavy Duty Tractor. This machine has 300 HP, variable transmission, 4 remotes, dual speed PTO, Front Axle Suspension and a host of other features. **Call now to book your slot for a demo of this machine as hours are limited.**

### Tractors, balers and mower conditioners

In stock for you to inspect...

**At Tamworth** - New Holland T6050 LS, T6020 Elite, TD5.110 and TT4.55

### **Challenge G30 Rear Grader Blades**

Tim Vincent, Booragul Angus, Piallaway recently purchased a Challenge G30 Blade - 3.0 metre rear grader blade. Tim was looking for a machine to repair the roads and infrastructure around his cattle yards. The Challenge blade has full hydraulic side-shift and tilt with rear depth wheels.

Branga Plains Pastoral Co at Walcha also chose a Challenge G30 rear grader blade. Guy and Suz Lord will use the blade to keep their roads in a safe and roadworthy condition for the traffic on their farms at Walcha. Pictured at the delivery/installation are farm machinery operator Chris and his daughter Olivia, with Suz Lord. Having their own Grader will mean that they can repair roads when required, and they will not be reliant on contractors or have the expense involved, keeping their roads in top shape as they did last year for Walcha Open Gardens.

**Post Hole Diggers** - most of us have used them, and at the moment there is some fencing going on with some moisture in the ground and people restocking and needing to repair fences. We have all heard of people being injured and killed by Post Hole Diggers.

#### **Some basic Post Hole Digger operating tips -**

PTO Shaft safety cover - CHECK IT, make sure it is operating correctly, PTO Shaft clutch (if fitted) Dismantle, clean the rust off the clutch plates - reassemble and adjust according to the operators manual, make sure the Auger can dig - if hard try some water in the hole or replace the digging teeth if needed.

**Safety** - do not work around the Post Hole Digger with anything loose - hair, clothing, belt or gloves. Do not go under the Machine near the PTO shaft while spinning. **ACCIDENTS DO HAPPEN WITH POST HOLE DIGGERS** - hydraulic drive units eliminate the PTO Shaft and can reduce the risk of injury enormously.

**Call us about new DIGGA Post Hole Diggers or safety checks & repairs on old machines.**

**SLASHER MAINTENANCE** - Before you go slashing PLEASE carry out some basic checks:

- 1. Check that the frame and hitch bolts are all tight.** Check that the bolts holding the clutch to the gearbox shaft are tight. Check the Blade cutter bar is attached properly to the gearbox shaft.
- 2. Inspect the blades and the blade cutter bar for damage or cracks.** If the Blades are worn, replace them, ensuring you replace the full set together as well as only using new blade bolts, nuts & bushes. **DO NOT use old bolts, nuts and bushes.**
- 3. Replace the gearbox oil** - (Tip: Use a suction syringe to suck out the old oil as most gearboxes do not have a drain plug you can get at.)
- 4. Dismantle the clutch** - it may have rusted together after the rain, using emery cloth, sand down the faces of the clutch to remove any rust. Make sure there is no grease or oil on the clutch parts. Reassemble the clutch, make sure you reset the clutch tension as per your operators Handbook. A useful rule of thumb for most clutches is to tighten all of the spring bolts and then back them off 2 turns, be precise with this as the clutch pressure needs to be even.
- 5. Lastly inspect your PTO shaft and cover** - disassemble the cover and shaft - clean the sliding section and re-grease it, check the Uni joints for movement and grease, ensure that the cover is fitted correctly, turns freely on the shaft and is not damaged in any way.

With this work done - you can be confident that you will not be unnecessarily delayed when it is time to slash - **If unsure please call our workshops to arrange a check.**

#### **JOKE OF THE MONTH** A Farmer and his pigs

A farmer had five female pigs. Times were hard, so he decided to take them to the County Fair and sell them. At the Fair he met another farmer who owned five male pigs. After talking a bit they decided to mate the pigs and split everything 50/50. The farmers lived sixty miles apart, so they agreed to drive thirty miles each and find a field in which to let the pigs mate.

The first morning, the farmer with the female pigs got up at 5 am, loaded the pigs into the family station wagon, which was the only vehicle he had and drove them the thirty miles...

While the pigs were mating he asked the other farmer, "How will I know if they are pregnant?" The other farmer replied, "if they're lying in the grass in the morning they are pregnant. If they are in the mud, they're not." The next morning the pigs were rolling in the mud. So he hosed them off, loaded them into the family wagon again and proceeded to try again. This continued each morning for more than a week.

The next morning he was too tired to get out of bed. He called to his wife, "Honey, please look outside and tell me if the pigs are in the mud or in the grass."

"Neither," yelled his wife, "they're in the station wagon and one of them is honking the horn."

**Keeping you up-to-date:** We are pleased to advise that **Tony Housden** is recovering from his cycling accident in January 2017. He is currently undertaking a "Return to Work Program" which will see him in the office Monday, Wednesday and Friday from 9am - 12pm.

**Another change at Goodwin Kenny**.....following Keith McPhie's decision to retire, and after many years of operation and service to our Armidale and district customers, we have decided to close the Armidale Branch.

**The last day of trading at Armidale was 24th July 2017.**

**All parts and machinery have been transferred to our Tamworth branch.** (Office Building & Container for Sale)

I would like to thank Keith McPhie for his continued service at Armidale from 2002 until 2017. Keith, having been a farmer and a publican "in a previous life", was a logical choice to succeed Jack Walsh in the role at Armidale branch. Keith has had many conversations with our customers over the last 15 years and I am sure many will miss his knowledge, commentary and company.

**We wish Keith and Carleen a happy and healthy retirement.**

At this time I would also like to acknowledge the contribution made by **Jack Walsh** who manned the Armidale branch from 1990 until 2002. Armidale branch was

a passion of my late father-in-law, **Aub Goodwin**, who was born in Walcha and believed that the Armidale branch was a good opportunity for Goodwin Kenny but even more so, that it was a service for our valued customers. Aub manned the Armidale branch for a number of years before Jack took over the role. We have been fortunate to have three knowledgeable and chatty men over the years to look after our customers.

**In this day and age of mobile phones, emails and transport/freight options we will continue to provide the best possible service our customers in the Armidale district. Our Parts, Service and Sales team at Tamworth will be able to answer any inquiries and we will be able to source parts and freight them to a Carrier depot of your choice or to a local business house that you are familiar with.**

**WEAN PICNIC RACES** held on Saturday 8th July was a great day with wonderful weather and good company. The Pirate

theme was evident all around the course and the Fashions in the Field were a lot of fun. Our "Pirate" party above, Doug and Cath Neill (Best Dressed Pirate Couple), Fiona Little (Best Dressed Lady Pirate), Steve Prosser, Margie Pink, Todd McDonald, myself and Rob Taggart. Doing official duties presenting the trophy for the Tamworth/Gunnedah/Narrabri Businesses Flixton Picnic Maiden Plate with Doug Brown (Browns Tyre Service), the owners of "What a Bonus" and Rob Southwell (Narrabri). I even found time to talk to some customers! Chatting with Keith Blanch and Paul McCulloch.
