

Another BB1290 for Catcott

Ian and Donna Swain operate a large cattle feedlot on the outskirts of Carroll and as such there is a lot of hay grown and baled to support this enterprise. Having owned and operated a New Holland BB1290 Big Square Baler for the last four years and considering that it was time to update their baler they decided to purchase a baler of the same size for 2019. The new BB1290 baler has some added upgrades over the previous baler to further enhance its operation and productivity. CNH Industrial Capital's easy, flexible finance and attractive rates enhanced the deal. Pictured at Tamworth for the baler installation are Goodwin Kenny Hay Technician - Nathan Keel, Catcott's operators Tim and Richard, and Peter Kenny.

CNH INDUSTRIAL CAPITAL

6th New Holland Round Baler for the Danieli family

Following a proven business plan of keeping his machinery up to date, Tim Danieli has decided to trade his New Holland BR7060 Round Baler on a new New Holland RB150 Superfeed baler. This timely transaction has taken advantage of some "end of year - stock special" discounts from New Holland and Goodwin Kenny along with a very attractive interest rate provided by CNH Industrial Capital Australia Pty Ltd. The baler was put to work quickly in the Christmas/New Year period with some crop that has benefitted from recent storm rains. The New Holland RB150 has many upgrades from the BR7060 model which are all aimed to produce more bales of even consistency, more efficiently. Pictured in Tamworth for the baler installation are Tim Danieli, Goodwin Kenny Hay Technician - Nathan Keel and Shane Danieli. If you would like to increase the efficiency of your baling, please call in and talk to the team at either our Tamworth or Gunnedah branches.

A new Mower Conditioner for Christmas (or just after!)

Peter Rumbel has been making hay for many years in the Dungowan area and unfortunately had a major breakdown just prior to Christmas. As Peter was needing to get back to work as quickly as possible, he and the family decided it was a good time to purchase a new machine (what better Christmas present?). After confirming his decision early on Thursday morning with Susan Goodwin, a New Holland H7230 Discbine Mower Conditioner which was in stock was made ready for him to call in and hook up to his tractor, so we could set it up, install the mower and get him going quickly. The H7230 has a 2 point hitch and a 3.16 metre (10'4") cutting width. Peter does some contract work and can be contacted on 0428 694254. (We only have two of these mowers left in stock). Peter is pictured with the mower.

Another Burder Stick Rake to work
Scott Waters (pictured) had some clearing and cleaning up to do at Weilmoringle and purchased a Burder 9000 Series 2.4 metre stick rake with wings and mesh in-fill. The rake is fitted with Aus lugs to suit his New Holland T5060 tractor with Challenge AP35 Plus front end loader.

Kerfab
ATTACH+GO

Kerfab Spikes prove their point

A Caterpillar Skid Steer Loader can be very useful for many tasks on the farm, but without spikes, Andrew Hunt discovered is not much good for feeding out hay. We were able to source a set of Big Square Bale Spikes with the correct hitch to suit the Skid Steer through Kerfab Engineering in Victoria. A very solid set, standard with a double bale back rest, Conus 2 tines and an attractive price. Pictured is Andrew with his Kerfab spikes.

Do you have a machine with an odd hitch?
Call Goodwin Kenny for help getting any hay handling attachment made to suit your machine.

GOODWIN KENNY is open Saturdays: At Tamworth from 9.00am - 12.00pm | At Gunnedah from 8.30am - 11.30am

Balala Composting making Hay

Ron Jones has decided there is value in having his own hay plant to take advantage of cutting and baling at the most optimum time to maximise the quantity and quality of the hay he can make. Being a Dry land operation in the Kingstown area timing is everything. Ron has chosen one of our trade machines, a Used New Holland H7450 Discbine Mower Conditioner with Rubber Conditioning Rollers to get across his country quickly. This will be followed with a new Kverneland (Taarup) 9471S Evo Twin Rotor Hay rake, with the ability to rake two individual windrows or swing it over and rake two rows into one. The 9471S Evo has Kverneland's TERRALINK QUATTRO system which allows the rake to flex and maintain

the correct raking height of the rotor together with the pivoting undercarriage wheels, allowing the rake to cope with the undulations in the paddock. Call Tony Housden for all your raking needs.

Tried, Tested, Rugged and Reliable sowing

Goodwin Kenny have delivered a new John Shearer 2 Bin, 6 Row Direct Drill in the district just in time to sow a little summer pasture and then be ready for some early Oats, if the storms keep coming.

This machine has been fitted with a Small Seeds Box and a Baker 'T' Boot conversion. The John Shearer Direct Drill has the lifted bins as standard to allow sowing over all 6 rows for terrific trash flow, the standard 620 double spring edge on tines will be suitable in all but the very hardest of sowing conditions.

If you would like a quote on any John Shearer machine call Goodwin Kenny today.

SPRAYING - New 2, 4-D Label Instructions Overview

As of 1st October 2018, new 2, 4-D label instructions came into effect and old labels have been suspended. Users of 2, 4-D must comply with the new label instructions, even if they are using products with old labels.

The APVMA has issued permit PER 87172 with new instructions to allow persons to possess, have custody of, supply, and/or use 2, 4-D products currently on Farm and in Retail Outlets. Supply at the Point of Retail Sale must occur with the new instructions being provided with each container supplied.

The new label for 2, 4-D can be viewed via the following link:

https://apvma.gov.au/sites/default/files/specialgazette_041022018_0.pdf

These Changes Affect 220 Products and the New Instructions Include:

- A Mandatory Requirement to use Nozzles producing droplets no smaller than **Very Coarse (VC)** spray quality category.
- Advisory statements for summer crop spraying applications between 3rd October and April 15th including Nozzles with **Extremely Coarse (XC)** to **Ultra Coarse (UC)** spray quality.
- A requirement not to spray in inversion conditions and additional information on recognising inversion conditions.
- Downwind mandatory no spray zones for both Aquatic and Terrestrial off Target vegetation (including Sensitive Crops, Gardens, Landscaping Vegetation, Protective native Vegetation or Protected Animal habitat).
- Mandatory record keeping requirements.

Call into Spare Parts to discuss your nozzle requirements to comply with the new regulations.

From the Simplicity website ..Saturday, 27th October, was a day full

of blue skies and pink shirts for our Annual Simplicity Golf Day! We would like to thank our Sponsors, everyone who participated and give a special shout out to Peter Kenny from Goodwin Kenny who travelled all the way from Gunnedah to have a hit of golf!Check out their website ... www.simplicity.com.aufor Simplicity Air Seeders as well!

OPEN SATURDAY MORNINGS - Tamworth Branch from 9am to 12pm. Gunnedah Branch from 8:30am to 11:30am.

Joke of the Month

A woman, cranky because her husband was late coming home again decided to leave a note saying "I've had enough and left you, don't bother coming after me" and hid under the bed to see his reaction.

After a short while the husband comes home and she could hear him in the kitchen before he comes into the bedroom, she could see him walking towards the dresser and pick up the note. After a few minutes he wrote something on it before picking up the phone and calling someone; - "she's finally gone...yeah I know, about bloody time, I'm coming to pick you up, put on the sexy French outfit, I love you". He hung up, grabbed his keys and left. She heard the car drive off as she came out from under the bed, seething with rage and with tears in her eyes she grabbed the note to see what he wrote; "I can see your feet. Stop being stupid, we're outta bread, throw the kettle on, back in 5".

MONTHLY WINNERS

Congratulations to our New Holland Cap winners:

AD & WD Gardner - Dungowan
WB & SA Mitchell - Moonan Flat
CJ & RL Englebrecht - Tamworth

This month we have some more **NEW HOLLAND CAPS** to give away - simply make your payment by 25th January 2019 to go into the draw.

We would also remind customers that we accept Visa & MasterCard over the phone & Debit cards may be used at our Branches.

All payments are included in the monthly draw.

Our bank: Commonwealth Bank BSB: 062 602 Account Number 00 272 029

Please use your Account number, Name or Invoice number as a reference.

"Creativity is Intelligence having fun." Sir Albert Einstein

There must be a "world" of intelligence at the Tamworth Regional Gallery at present. The **2018 Archibald Prize** exhibition is well worth a visit. Just before Christmas I had my mother and my brother's family visiting and we spent some time looking at the many and varied paintings, all seeing different things and liking different Artists. I was also lucky to attend a "Conversation" with local Murrumbidgee artist David Darcy and his subject Charlotte Drake-Brockman (pictured) on Sunday 16th December which was most entertaining and enlightening. David has only been painting for 18 months and his portrait of Charlotte is amazing. She is a quite a character too!

The Gallery will be holding another Artist talk in January with Amber Boardman who painted this self portrait (at left) titled "Self-care Exhaustion".

The exhibition runs until 27th January 2019.

(Contact Tamworth Regional Gallery on 67675248 for Guided tour dates and more details)

More creativity in action... a shout out to the lovely ladies, Jen McMahon at **New England Living** and Anna Davies at **Downtown**, and their teams that produce these wonderful magazines filled with local news and content. We are so very fortunate to

live in this area where there is so much to see and do. Jen and Anna throw a spotlight on many local businesses, artists, community events and good news stories from our region and their magazines make for some good holiday reading.

We all know that farming is a full time job! And we also know that the Farmer's wife has a big role to play. While watching ABC's Landline recently I saw a story about a couple, Ian and Anne Galloway, who commissioned a book to showcase the stories of women in agriculture.

Cattlemen in Pearls introduces you to 28 remarkable Australian women, spanning three generations, whose love for the land & livestock is ingrained in their genetic profile. The tough physical and emotional terrain of the bush, and strong family ties, play a role in each of these diverse, down-to-earth and sometimes heartbreaking stories. There are droughts, floods, emergencies, times of despair and loss, as well as hilarious antics, joyous gatherings and extraordinary stories of success.

Purchase the book: <https://inhousebookstore.com.au/products/cattlemen-in-pearls>

Farewell 2018, looking back this was a year of mixed emotions, weather and business trading. I would like to say "Thank You" to our many customers, new and old, who have supported our business through the year with purchases of new and used machinery, spare parts

and service work. During 2018 we delivered many New Holland tractors, balers and mower conditioners. There will a price rise across all New Holland product this month - however Tractors and Mower Conditioners that are currently in stock will have a "price advantage", so if you are looking for a tractor or mower conditioner call us or drop in and inspect the machines on display. We have a range from 75 horsepower to 300 horsepower, ROPS & cab. CNH Industrial Capital finance is also available.

For the first time in some months we have a couple of Used tractors in

stock which both present well with low hours and tidy appearance (see our Used Machine page). The last week of the 2018 proved to be busy as we finalised some deliveries (page 1). Challenge front end loaders and hay handling equipment were also in demand due to the fact that many farmers were needing to feed hay and we continue to keep a range of hay handling forks, spikes and grabs in stock. Our Spare Parts are also fully stocked (some Toys still in stock too!) as we hope that rain will come and we will be able to support your endeavours "in the field". We will be closed on **Saturday 26th & Monday 28th January 2019** for the Australia Day holiday.

Wishing you all great weather, good health and happiness in 2019.

..Susan Goodwin
